(*Ord. 16-581.*)

§ 1-202. Captions or headings.

The captions or headings of the various sections and subsections:

(2) are not law and are not to be taken as affecting the meaning or effect of the law.
(*Ord. 16-581.*)

§ 1-203. Code not a permit.

Nothing in this Code may be taken to be a consent, license, or permit to:

(*Ord. 16-581.*)

(a) *Code sets minimum requirements.*

In their interpretation and application, the provisions of this Code are intended as the minimum requirements for the promotion of the public health, safety, and welfare.

(b) *Most restrictive provision governs.*

If any condition or requirement imposed by this Code is either more or less restrictive than a comparable condition or requirement imposed by any other provision of this Code or of any other law, rule, or regulation of any kind, including an applicable Urban Renewal Plan, the condition or requirement that is the more restrictive governs.
(*Ord. 16-581.*)

§ 1-211. Severability.

(a) *In general.*

Except as specified in subsection (b) of this section:

- (1) all provisions of this Code are severable; and
- (2) if a court determines that a word, phrase, clause, sentence, paragraph, subsection, section, or other provision is invalid or that the application of any part of the

provision to any person or circumstances is invalid, the remaining provisions and the application of those provisions to other persons or circumstances are not affected by that decision.

(b) *Exceptions.*

Subsection (a) of this section does not apply:

(1) to the extent that a statute specifically provides otherwise; or

(2) if the court finds that the remaining provisions alone are incomplete and incapable of being executed in accordance with the legislative intent.

(Ord. 16-581.)

§ 1-212. Tables.

(a) *In general.*

(1) Except for the Cumulative Table of Uses, the “Tables” contained in this Code and the statutory references to them are part of this Code and of the laws enacted by it.

(2) The Cumulative Table of Uses that accompanies this Code:

(i) is for convenience of reference only, intended as a guide to this Code; and

(ii) is not law and is not to be taken as affecting the meaning or effect of the law.

(iii) a “CO” indicates that a use is a conditional use within that zoning district requiring approval by Ordinance of the Mayor and City Council;

(iv) no letter (that is, a blank space) or the absence of the use from the table indicates that the use is not allowed within that zoning district; and

(v) each Table of Uses organizes its lists of uses under the following “Use Categories”: “Residential”, “Institutional”, “Open-Space”, “Commercial”, “Industrial”, and “Other”.

(2) In Signage Tables

(i) an “A” indicates that a sign type is allowed in that Zoning District; and

(b) *Computation of time before a day, act, or event.*

(1) In determining the latest day for performing an act that is required by this Code to be performed a prescribed number of days before a certain day, act, or event, all days preceding that day, including intervening Saturdays, Sundays, and legal holidays, are counted in the number of days so prescribed.

(2) The latest day is included in the determination unless it is a Saturday, Sunday, or legal holiday, in which event the latest day is the first preceding day that is not a Saturday, Sunday, or legal holiday.

(Ord. 16-581.)

Terms not defined in this Code are to be interpreted in accord with their ordinarily accepted meanings, as their context implies.

(Ord. 16-581.)

§ 1-215. “Used” or “Occupied”.

Whenever the word “used” or “occupied” is used, it is to be construed as though followed by the phrase “or arranged, intended, or designed to be used/occupied”.

§ 1-216. {Reserved}

§ 1-217. Uses – generic, specific, and prohibited.*(a) Generic uses described.*

Certain uses in this Code are defined to be inclusive of many specific uses so as to minimize overly detailed lists of uses for the various zoning districts established by this Code. These inclusive uses are referred to in this Code as “generic uses”.

(b) Relationship of generic to specific.

- (1) If a specific use is listed in any use table, that specific use cannot be interpreted as falling within any generic use that is listed in the same table.
- (2) If the definition of a generic use specifically excludes a specific use, the generic use cannot be interpreted as allowing that specific use.

(c) Uses prohibited if not listed.

A use is prohibited in a zoning district unless:

- (1) that use is specifically listed as a permitted or conditional use in the use table for that district; or
- (2) that use falls within the definition of a generic use that is itself listed as a permitted or conditional use in the use table for that district.

(Ord. 16-581; Ord. 18-171.)

§ 1-218. Uses prohibited citywide.*(a) Application of section.*

(d) *Traffic mitigation.*

(1) *Referral to DoT.*

Within 15 business days of receiving a completed application, the Zoning Administrator must refer the application and all accompanying documents to the Director of Transportation, if:

- (i) traffic-mitigation requirements for the proposed structure or use have not already been complied with in accordance with this Code or the City Building, Fire, and Related Codes Article; and

(b) *Resubmission within 1 year.*

(1) If a zoning application is resubmitted for the same property within the 1-year period, the subsequent application must include a detailed description of how the application is a substantially different request or how substantial new evidence justifies its consideration.

(2) The Zoning Administrator must determine whether the subsequent application is a substantially different request or presents substantial new evidence that justifies its consideration. If the Zoning Administrator finds that the application is not appropriate for resubmittal, the Zoning Administrator must summarily, and without need for a hearing, deny the request.

(*Ord. 16-581.*)

SUBTITLE 3
VARIANCES

§ 5-301. Purpose.**(a) *In general.***

The purpose of the variance procedure is to afford a property owner relief from certain regulations of the Zoning Code when unnecessary hardship or practical difficulty exists.

(b) *Application.*

The variance procedure applies only to changes in bulk and yard regulations and to changes in signage, parking, and loading requirements. It does not apply to changes in the uses, the maximum quantity of signs, the location requirements of signs, or the types of signs allowed within a zoning district.

(Ord. 16-581; Ord. 17-015; Ord. 18-171; Ord. 18-216; Ord. 20-350.)

§ 5-302. Minor and major variances distinguished.**(a) *In general.***

This Code allows for 2 types of variances that may be granted under this subtitle, minor variances and major variances.

(b) *Minor variances.*

(1) Minor variances comprise the following specified variances:

- (i) a reduction in lot width by no more than 10% of the applicable minimum lot width requirements;
- (ii) a reduction in required yards and setbacks by no more than 10% or 2 feet, whichever is less;
- (iii) a reduction in the number of off-street parking spaces by no more than 10% of the applicable minimum requirements;
- (iv) a reduction in the required alley width for access to off-street parking; and
- (v) a variance to bulk or yard regulations if:
 - (A) the parcel of land is improved with a nonconforming structure that has been in existence for at least 50 years;
 - (B) the variance would not permit more than a 10% cumulative increase in the bulk and density of a structure that has been in existence for 50 or more years; and

(C) in the opinion of the Zoning Administrator, the application complies with all applicable approval criteria for variances.

(2) The Zoning Administrator may grant minor variances from the regulations of this Code.

(c) *Major variances.*

(1) Any variance not identified in subsection (b) of this section as a minor variance is a major variance.

(2) Unless legislation has been introduced to approve a variance by ordinance, the Board of Municipal and Zoning Appeals may grant or deny any application for a major variance.
(*Ord. 16-581; Ord. 17-015.*)

§ 5-303. Review of applications.

(a) *Determinations by Zoning Administrator.*

The Zoning Administrator must determine:

- (1) whether the application is for a minor variance or a major variance; and
- (2) which City agencies and officials, if any, should be asked to review the application and submit written reports and recommendations on it.

(b) *Notice of findings.*

(1) The Zoning Administrator must inform the applicant of the determination made under subsection (a)(1) of this section.

(2) If the Zoning Administrator determines the application is for a major variance, the Zoning Administrator must inform the applicant that:

- (i) a major variance can be granted by ordinance or by the Board of Municipal and Zoning Appeals;
- (ii) the applicant may request the City Council to introduce an ordinance to grant the major variance;
- (iii) in the absence of legislation to approve a major variance by ordinance, the Board of Municipal and Zoning Appeals may grant or deny the major variance; and
- (iv) the applicant may appeal the decision of the Zoning Administrator and that the appeal must be filed within 30 days of the Zoning Administrator's decision.

(3) The Zoning Administrator must forward an application determined to be a major variance to the Board of Municipal and Zoning Appeals.

(*Ord. 16-581.*)

§ 5-304. Minor variances.*(a) Review standards; Notice.*

(b) Resubmission on objection.

If written objection to the minor variance is received before the end of the required posting period, the application must be resubmitted to the Board of Municipal and Zoning Appeals as a major variance, subject to the application, notice, and public hearing requirements applicable to major variances.

(c) Decision by Administrator.

If no written objection is timely received, the Zoning Administrator must render a written decision on the application within 30 days of the end of the required posting period and either approve, approve with qualifications, or deny the application.

(d) Appeal to BMZA.

The applicant may appeal the Zoning Administrator's decision to the Board of Municipal and Zoning Appeals. The appeal must be filed within 30 days of the Zoning Administrator's decision.

(Ord. 16-581.)

§ 5-305. Major variances.*(a) Review standards.*

The Board of Municipal and Zoning Appeals or the City Council, as the case may be, must evaluate the request for a variance, based on the evidence presented at a public hearing, in accordance with the standards in § 5-308 {"Approval standards"} of this subtitle.

*(b) Procedures before the BMZA.**(1) Public hearing required.*

- (i)* The Board of Municipal and Zoning Appeals must consider a proposed major variance in a public hearing.
- (ii)* Notice of the public hearing must be given in accordance with Title 5, Subtitle 6 {"Notices"} of this Code.
- (iii)* Except as provided in subsection (b) of this section, the hearing must be concluded no more than 60 days from the Board's receipt of the completed application.

(2) *Waiver of time limit.*

- (i) If, in the judgment of the Board of Municipal and Zoning Appeals, the application does not contain sufficient information to enable the Board to properly discharge its responsibilities, the Board may request additional information from the applicant or from City agencies or officials.
- (ii) In that event, the 60-day period will be suspended or the public hearing continued pending receipt of all requested information.
- (iii) The applicant may also waive this time limit by requesting a postponement from the Board of Municipal and Zoning Appeals.

(3) *Decision by Board.*

- (i) The Board of Municipal and Zoning Appeals must render its written decision, approving, approving with conditions, or denying the application, within 30 days of the close of the public hearing.
- (ii) The Board may extend this period for up to an additional 30 days on a majority vote of the Board at a publicly scheduled meeting.

(4) *Cessation of BMZA procedures.*

- (i) All actions and other procedures taken under this subsection must immediately cease if:
 - (A) the Board of Municipal and Zoning Appeals has not rendered a written decision under this subsection; and
 - (B) the City Council has referred to the Board a bill to approve the variance by ordinance.
- (ii) On this cessation of procedures, the application is deemed to be voluntarily withdrawn by the applicant.

(c) *legislative limitation.*

No legislation may be introduced to approve a major variance after the Board of Zoning Appeals has rendered a written decision on an application involving the same subject matter.

(Ord. 16-581; Ord. 17-015.)

§ 5-306. Qualifications.

(a) *Criteria for imposing.*

Before approving any variance, the Zoning Administrator, the Board of Municipal and Zoning Appeals, or the City Council, as the case may be, may impose on the establishment, location,

construction, maintenance, or operation of the variance, any condition, restriction, or limitation that it considers necessary or desirable to:

- (1) reduce or minimize the effect of the variance on other properties in the neighborhood;
- (2) secure compliance with the standards and requirements of this Code; and
- (3) better carry out the intent and purpose of this subtitle.

(b) *Assurances of compliance.*

The Zoning Administrator, the Board of Municipal and Zoning Appeals, or the City Council, as the case may be, may require whatever evidence and guarantees considered necessary to assure that the conditions, restrictions, and limitations imposed will be met and complied with.

(c) *Failure to comply is a violation of Code.*

Failure to comply with any condition, restriction, or limitation imposed under this section constitutes a violation of this Code.

(Ord. 16-581.)

§ 5-307. Variance less than requested.

A variance less than that requested may be granted by the Zoning Administrator, the Board of Municipal and Zoning Appeals, or the City Council, as the case may be, if the record supports the applicant's right to some relief, but not to the entire relief requested.

(Ord. 16-581.)

§ 5-308. Approval standards.

(a) *Required finding of unnecessary hardship or practical difficulty.*

In order to grant a variance, the Zoning Administrator, the Board of Municipal and Zoning Appeals, or the City Council, as the case may be, must find that, because of the particular physical surroundings, shape, or topographical conditions of the specific structure or land involved, an unnecessary hardship or practical difficulty, as distinguished from a mere inconvenience, would result if the strict letter of the applicable requirement were carried out.

(b) *Other required findings.*

The Zoning Administrator, the Board of Municipal and Zoning Appeals, or the City Council, as the case may be, must also find that:

- (1) the conditions on which the application is based are unique to the property for which the variance is sought and are not generally applicable to other property within the same zoning classification;

- (2) the unnecessary hardship or practical difficulty is caused by this Code and has not been created by the intentional action or inaction of any person who has a present interest in the property;
- (3) the purpose of the variance is not based exclusively on a desire to increase the value or income potential of the property;
- (4) the variance will not:
 - (i) be injurious to the use and enjoyment of other property in the immediate vicinity; or
 - (ii) substantially diminish and impair property values in the neighborhood;
- (5) the variance is in harmony with the purpose and intent of this Code;
- (6) the variance is not precluded by and will not adversely affect:
 - (i) any Urban Renewal Plan;
 - (ii) the City's Comprehensive Master Plan; or
 - (iii) any Historical and Architectural Preservation District; and
- (7) the variance will not otherwise:
 - (i) be detrimental to or endanger the public health, safety, or welfare; or
 - (ii) be in any way contrary to the public interest.

(Ord. 16-581; Ord. 17-015.)

§ 5-309. Expiration of approval.

- (a) *Exercise within year required.*

A variance lapses and becomes void 1 year from the date of its final approval, unless substantial construction has occurred within that year.

- (b) *Extension by BMZA.*

The Board of Municipal and Zoning Appeals may grant an extension of this period, for both minor and major variances, on written application and for good cause shown, without notice or hearing.

(Ord. 16-581.)

SUBTITLE 4
CONDITIONAL USES

§ 5-401. Purpose.**(a) *In general.***

This Code is based on the division of the City into districts, in which the uses of land and structures and the bulk and location of structures in relation to the land are substantially uniform. Certain uses exist, however, that, because of their unique characteristics, cannot properly be classified in any particular district without consideration, in each case, of the impact of those uses on neighboring land and of the public need for the particular use at the particular location. These uses, referred to as conditional uses, may only be approved as specified in this subtitle.

(b) *Bulk standards.*

In certain districts, bulk standards are allowed additional intensity by conditional use approval. The conditional use in these situations is interpreted as allowing the use within the structure to be more intense than would be allowed under permitted district standards.

(Ord. 16-581.)

§ 5-402. *{Reserved}***§ 5-403. Referrals.****(a) *Section applicable to CB approvals.***

This section applies to applications for conditional uses that require approval by the Board of Municipal and Zoning Appeals.

(b) *Referral to BMZA for action.*

Once the Zoning Administrator determines that an application for conditional-use approval by the Board of Municipal and Zoning Appeals is complete, the Zoning Administrator must forward the application to the Board for its consideration and action on the application.

(c) *Referral to Planning Director, others for recommendation.*

The Zoning Administrator must also refer the completed application to the following, for their submission within 15 days of the referral, of written reports and recommendations to the Board of Municipal and Zoning Appeals:

(1) the Department of Planning; and

(2) any other City agencies and officials that the Zoning Administrator determines should be asked to review the application and submit written reports and recommendations on it.

(Ord. 16-581.)

§ 5-404. Actions taken.*(a) Review standards.*

The Board of Municipal and Zoning Appeals or the City Council, as the case may be, must evaluate the request for a conditional use, based on the evidence presented at the public hearing, in accordance with the standards in § 5-406 {“Approval standards”} of this subtitle.

*(b) Procedures before the BMZA.**(1) Public hearing required.*

- (i) The Board of Municipal and Zoning Appeals must consider a proposed conditional use in a public hearing.
- (ii) Notice of the public hearing must be given in accordance with Title 5, Subtitle 6 {“Notices”} of this Code.
- (iii) Except as provided in subsection (b) of this section, the hearing must be concluded no more than 60 days from the Board’s receipt of the completed application.
- (iv) If the Department of Planning or other City agency or official fails to timely submit its written report and recommendations, the Board of Municipal and Zoning Appeals may proceed without that report and recommendations.

(2) Waiver of time limit.

- (i) If, in the judgment of the Board of Municipal and Zoning Appeals, the application does not contain sufficient information to enable the Board to properly discharge its responsibilities, the Board may request additional information from the applicant or from City agencies or officials.
- (ii) In that event, the 60-day period will be suspended or the public hearing continued pending receipt of all requested information.
- (iii) The applicant may also waive this time limit by requesting a postponement from the Board of Municipal and Zoning Appeals.

(3) Decision of Board.

The Board of Municipal and Zoning Appeals must render its written decision, approving, approving with conditions, or denying the application within 30 days of the close of the public hearing.

(Ord. 16-581.)

§ 5-405. Conditions.*(a) In general.**(1) Imposition authorized.*

Before approving any conditional use, the Board of Municipal and Zoning Appeals or the City Council, as the case may be, may impose on the establishment, location, construction, maintenance, or operation of the conditional use any condition, restriction, or limitation that it considers necessary for the protection of the public interest.

(2) Criteria for imposing.

Any condition imposed under this subsection must be reasonably related and roughly proportional to the expected impact of the conditional use.

(b) Failure to comply is a violation of Code.

Failure to comply with any condition, restriction, or limitation imposed under this subtitle:

(1) constitutes a violation of this Code; and

(2) in addition to any other civil or criminal remedy or enforcement procedure, is grounds for modification, suspension, or revocation of the conditional use.

(Ord. 16-581.)

§ 5-406. Approval standards.*(a) Limited criteria for denying.*

Neither the Board of Municipal and Zoning Appeals nor the City Council, as the case may be, may approve a conditional use unless, after public notice and hearing and on consideration of the standards required by this subtitle, it finds that:

(1) the establishment, location, construction, maintenance, or operation of the conditional use would not be detrimental to or endanger the public health, safety, or welfare;

(2) the use would not be precluded by any other law, including an applicable Urban Renewal Plan;

(3) the authorization would not be contrary to the public interest; and

(4) the authorization would be in harmony with the purpose and intent of this Code.

(b) Required considerations.

As a further guide to its decision on the facts of each case, the Board of Municipal and Zoning Appeals must consider the following, where appropriate:

- (1) the nature of the proposed site, including its size and shape and the proposed size, shape, and arrangement of structures;
- (2) the resulting traffic patterns and adequacy of proposed off-street parking and loading;
- (3) the nature of the surrounding area and the extent to which the proposed use might impair its present and future development;
- (4) the proximity of dwellings, churches, schools, public structures, and other places of public gathering;
- (5) accessibility of the premises for emergency vehicles;
- (6) accessibility of light and air to the premises and to the property in the vicinity;
- (7) the type and location of adequate utilities, access roads, drainage, and other necessary facilities that have been or will be provided;
- (8) the preservation of cultural and historic landmarks and structures;
- (9) the character of the neighborhood;
- (10) the provisions of the City's Comprehensive Master Plan;
- (11) the provisions of any applicable Urban Renewal Plan;
- (12) all applicable standards and requirements of this Code;
- (13) the intent and purpose of this Code; and
- (14) any other matters considered to be in the interest of the general welfare.

(Ord. 16-581; Ord. 17-015.)

§ 5-407. Expiration of approval.

- (a) *Exercise within year required.*

A conditional use lapses and becomes void 1 year from the date of its final approval unless, within that year:

- (1) a use permit under this Code and an occupancy permit under the Baltimore City Building Code have been obtained for that use;
- (2) the erection or alteration of a structure for that use has lawfully begun; or
- (3) the use has lawfully begun.

(b) *Extension by BMZA.*

The Board of Municipal and Zoning Appeals may grant an extension of this period on written application and for good cause shown, without notice or hearing.

(Ord. 16-581; Ord. 18-171.)

§ 5-408. Discontinued conditional use.

If any conditional use is discontinued for a continuous period of 2 years or more, the conditional use approval automatically lapses and is void. A new application and authorization is required before the conditional use may be re-established.

(Ord. 16-581.)

§ 5-409. Revocations, etc., of conditional use.

(a) *Attempted resolution.*

Whenever the Zoning Administrator learns of a violation of a condition, restriction, or limitation imposed under this subtitle, the Zoning Administrator must attempt to resolve the violation informally and promptly.

(b) *Notice of proposed action.*

(1) If the Zoning Administrator is unable to resolve the violation, the Zoning Administrator must issue a notice of proposed revocation to:

- (i) the owners of record of the property, as shown on the tax records of Baltimore City;
- (ii) the persons to whom the conditional use approval was granted or the current operator;
- (iii) the owners of record of the properties immediately adjacent to the property; and
- (iv) the community, neighborhood, or improvement association listed with the Department of Planning for the area in which the property lies.

(2) A copy of the notice must be provided to the Department of Planning.

(c) *Contents of notice.*

The notice must:

- (1) specify the nature of the violation; and
- (2) warn the recipient that, unless the violation is corrected within 30 days, or such other time as is specified in the notice, the matter will be referred to the Board of Municipal and Zoning Appeals for potential modification, suspension, or revocation of the conditional use.

(d) *How notice served.*

All notices must be served by 1 of the methods specified in § 19-207 {“Violation notice: Service”} of this Code.

(e) *Referral to Board.*

- (1) If the violation is not corrected within the time specified, the Zoning Administrator must forward the record of this matter to the Board of Municipal and Zoning Appeals and request the Board to schedule a hearing.
- (2) On receipt of the request, the Board of Municipal and Zoning Appeals must promptly schedule the matter for a hearing, to be held as soon as practicable.

(f) *Decision.*

 - (i) revoke the conditional use;
 - (ii) suspend the conditional use subject to completion of corrective action or other condition set by the Board; or
 - (iii) affirm the conditional use, subject to a schedule for corrective action, with provision for automatic termination if the schedule is not met.

- (2) The Board’s findings must be specifically documented in the record.

SUBTITLE 8
ZONING CONSULTATIONS

§ 5-801. Purpose.

The consultation process provided for by this subtitle recognizes that the provisions of this Code, though detailed and extensive, cannot as a practical matter address every specific zoning issue.

This process is thus intended to assist in clarifying the purpose and intent of the provisions of this Code. It is not intended, however, to permit adding to or changing the essential content of this Code. (Ord. 16-581.)

§ 5-802. Who may request.

The following may request a consultation with the Zoning Administrator to assist in clarifying provisions of this Code:

- (1) the owner of any property in the City;
- (2) any person expressly authorized by a property owner in writing; or
- (3) any Councilmember or other official of City government.

(Ord. 16-581.)

§ 5-803. Procedure.

On request under § 5-802 {“Who may request”} of this subtitle, the Zoning Administrator:

- (1) must review the request; and
- (2) may:
 - (i) ask for additional information;
 - (ii) provide the consultation requested; and
 - (iii) provide a written summary of the consultation results.

(Ord. 16-581.)

§ 5-804. Non-binding status of consultations.

- (a) *In general.*

Zoning consultations are meant to provide advisory information about the application of the Zoning Code. Results of a consultation are not binding on the Zoning Administrator, the Board of Municipal and Zoning Appeals, the Planning Commission, or the Mayor and City Council when addressing questions that arise under this Code.

(b) *Disclaimer.*

All written summaries of consultations must include the following statement:

“The results of any Zoning Code consultation provided under this subtitle are advisory only and are not binding on the Zoning Administrator, the Board of Municipal and Zoning Appeals, the Planning Commission, or the Mayor and City Council when making decisions on matters within the scope of their authority under the Zoning Code or any provision of federal, state, or local law or regulation.”

(*Ord. 16-581.*)

SUBTITLE 9
ZONING VERIFICATIONS

§ 5-901. Purpose.

A zoning verification is a document issued by the Zoning Administrator, at an applicant's request and for the applicant's own use, that states whether a property complies with the use regulations or bulk and yard regulations of the district in which it is located. It is not required by this Code. (*Ord. 16-581; Ord. 17-015.*)

§ 5-902. Procedure.

(a) *In general.*

- (1) A zoning verification may be obtained from the Zoning Administrator, on application and payment of a fee for each request.
- (2) Except as provided in paragraph (3) of this subsection, a separate application must be made for each individual lot of property.
- (3) A community-managed open-space garden or farm need only pay the fee and submit an application for verification as a single lot, as long as the lots constituting that use are contiguous.

(b) *Required information.*

Each application must contain the following information:

- (1) The block and lot number of the property;
- (2) a description or definite street location of the property;
- (3) The name and address of the present owner of the property; and
- (4) the existing and any proposed use of the property.

(c) *Considerations.*

In issuing a zoning verification, the Zoning Administrator must consider both the use specified in the application submitted for the verification and the information contained in the Zoning Administrator's official records. A zoning verification that states a property is in compliance is limited by the accuracy of the information submitted by the applicant. (*Ord. 16-581.*)

§ 5-903. City immune from liability.

Neither the Mayor and City Council of Baltimore, the Zoning Administrator, nor any of their officers, agents, or employees may be held liable to any person, under any circumstances, in

connection with or resulting from the issuance of any zoning verification or in connection with or resulting from any information or statement contained in any zoning verification.

(2) Solid-waste acceptance facilities of the following types require conditional-use approval: waste-to-energy facilities, indoor-operated transfer facilities, and indoor-operated composting facilities, such as “in-vessel” composting facilities. If the use entails any significant development, the Board of Municipal and Zoning Appeals must find, as a condition of its approval, that a best management practices plan that will achieve a net improvement in water quality and habitat is submitted and implemented as a requirement of the Critical Area review process.

(d) *Conditional uses within Buffer.*

In a Waterfront Industrial Area within the Buffer, conditional uses are as otherwise provided in this Code for the underlying zoning district, subject to the provisions of § 7-406 {“Prohibited Uses”} and § 7-410 {“Intensely Developed Areas – Water-dependent facilities within Buffer”} of this subtitle.

(Ord. 16-581.)

§ 7-410. Intensely Developed Areas – Water-dependent facilities within Buffer.

In Intensely Developed Areas, water-dependent facilities are allowed in the Buffer only if all of the following standards are met:

- (1) the use and project meet a recognized private right or public need;
- (2) adverse effects on water quality and on fish, plant, and wildlife habitats are minimized and equivalent offsets have been made;

(3) to the extent possible, all associated non-water-dependent uses and structures are located outside the Buffer; and

(4) the facilities meet the requirements of the Critical Area Management Program, the Critical Area Development Manual, and the State law and regulations governing the Critical Area.

(Ord. 16-581.)

§ 7-411. Public utility and government services.

(Ord. 16-581.)

§ 7-412. Abandoned uses.

Any use in the Critical Area Overlay District that is discontinued for 12 consecutive months:

(1) is considered abandoned; and

(Ord. 16-581.)

§ 7-413. Bulk and yard regulations.

Properties in the Critical Area Overlay District are subject to:

(1) the bulk and yard regulations in the underlying zoning district; and

(2) to the extent that they are more restrictive, the lot coverage limitations imposed by the Critical Area Management Program.

(Ord. 16-581.)

§ 7-414. Variances and conditional uses.

(a) *In general.*

In addition to the general requirements of this Code governing variances and conditional uses, a variance or conditional use in the Critical Area is subject to the standards and procedures of:

(1) State Natural Resources Article Title 8, Subtitle 18;

(2) COMAR Title 27;

(3) the Critical Area Management Program; and

(4) this section.

(b) *Existing violations.*

No conditional use or variance may be granted to authorize a then-existing violation except as authorized in State Natural Resources Article § 8-1808 {“Critical Area Protection Program: Program development...”}.

(c) *Considerations, presumptions, and burden of proof.*

- (1) In considering an application for a conditional use or variance, the Planning Department and the Board of Municipal and Zoning Appeals must presume that the specific development activity for which a conditional use or variance is required does not conform with the general purpose and intent of State Natural Resources Article, Title 8, Subtitle 18, the general purpose and intent of COMAR Title 27, or the requirements of the Critical Area Management Program.
- (2) If the request for a conditional use or variance is based on conditions or circumstances that are the result of actions by the applicant, including the commencement of development activity before an application is filed, the Board of Municipal and Zoning Appeals may consider that fact.
- (3) An applicant has the burden of proof and the burden of persuasion to overcome the presumption of nonconformance established by paragraph (1) of this subsection.
- (4) The Board of Municipal and Zoning Appeals must make written findings as to whether, based on competent and substantial evidence, the applicant has overcome this presumption.
- (5) With due regard for the person’s experience, technical competence, and specialized knowledge, the findings may be based on evidence introduced and testimony presented by either:
 - (i) the applicant.
 - (ii) the City or any other government agency; and
 - (iii) any other person considered appropriate by the Board of Municipal and Zoning Appeals.

(d) *Applications.*

The Board of Municipal and Zoning Appeals must furnish copies of all applications for a conditional use or variance to the Planning Department and the Chesapeake Bay Critical Area Commission.

(e) *Findings – Planning Department.*

The Planning Department must find both that:

- (1) special conditions or circumstances exist that are peculiar to the land or structure for which the application is made; and

- (2) a literal enforcement of the requirements of the Critical Area Management Program would result in the applicant's being denied reasonable and significant use of the entire parcel or lot for which the conditional use or variance is requested.

(f) *Findings – Board of Municipal and Zoning Appeals.*

In addition, the Board of Municipal and Zoning Appeals must find that all of the following standards are met:

- (1) a literal interpretation of the Critical Area Management Program, the State Chesapeake Bay Critical Area law, or related regulations will deprive the applicant of rights commonly enjoyed by other properties in similar areas within the Critical Area;
- (2) the granting of a conditional use or variance will not confer on the applicant any special privilege that would be denied under the Critical Area Management Program, the Chesapeake Bay Critical Area law, or related regulations to other lands or structures within the Critical Area;
- (3) the granting of a conditional use or variance will not adversely affect water quality or adversely impact fish, wildlife, or plant habitats within either the Critical Area or any other protected part of the State Chesapeake Bay Critical Area within a neighboring jurisdiction;
- (4) the granting of a conditional use or variance will be in harmony with the general spirit and intent of the Critical Area Management Program, the State Chesapeake Bay Critical Area law, and related regulations; and
- (5) the application for the conditional use or variance either:
 - (i) is not based on conditions or circumstances that are the result of the applicant's own actions; or
 - (ii) does not arise from any condition that relates to a land or building use, whether nonconforming or otherwise allowed, on any neighboring property.

(Ord. 16-581.)

§ 7-415. Civil penalties.

(a) *Authority and Scope.*

- (1) This section is enacted by authority of State Natural Resources Article § 8-1808(c)(1)(iii)14.
- (2) This section applies in addition to any other civil or criminal penalty authorized by State or City law.

(b) *Administrator may impose.*

Any person who violates a provision of this subtitle, of the Critical Area Management Program, or of any rule or regulation adopted under them, including any contractor, property owner, or other person who authorizes or who assists or participates in the violation, is subject to the imposition by the Zoning Administrator of a civil fine of up to \$1,000 for each offense.

(c) *Each day a separate offense.*

Each day that a violation continues is a separate offense.

(d) *Considerations.*

In determining the amount of the penalty to be imposed under this section, the Zoning Administrator must consider the following:

- (1) the gravity of the violation;
- (2) any willfulness or negligence involved in the violation;
- (3) the environmental impact of the violation; and
- (4) the cost of restoring and mitigating the damage to the resource affected by the violation, including the cost to the State or the City for performing, supervising, or rendering assistance to the restoration and mitigation.

(e) *Procedures.*

The procedures for imposing the fine and for providing notice and an opportunity to be heard are as set forth in the Administrative Enforcement Procedures of the Critical Area Management Program.

§ 10-205. C-3 General Commercial District.

(a) *Areas for which intended.*

- (1) The C-3 General Commercial Zoning District is intended for more intensive commercial uses and key commercial nodes that require additional controls, particularly for shopping centers and larger retail establishments.
- (2) The C-3 District accommodates larger developments that may require significant parking, such as shopping centers and large-scale mixed-use development.

(b) *Standards.*

The C-3 District standards are crafted to:

- (1) ensure compatibility among neighboring residential, commercial, and entertainment uses;

(Ord. 16-581.)

§ 10-206. C-4 Heavy Commercial District.

(a) *Areas for which intended.*

The C-4 Heavy Commercial Zoning District is intended for areas of more intense commercial use that are generally not appropriate for lower intensity commercial districts, including uses related to motor vehicles and those that might require outdoor storage.

(Ord. 16-581.)

§ 10-207. C-5 Downtown District.

(a) *Areas for which intended.*

The C-5 Downtown Zoning District is intended for Baltimore's Downtown and accommodates a wide range of uses normally associated with the downtown of a major city.

(b) *Standards.*

The C-5 District standards are crafted to:

(1) maintain or improve the pedestrian environment;

(2) ensure that new construction is compatible with existing development; and

(3) develop a greener downtown.

(c) *Subdistricts.*

(1) *In general.*

In order to address the different character areas that make up Downtown, the C-5 District is divided into the following subdistricts, for which varied bulk and yard regulations are provided to recognize the different physical characteristics of Downtown.

(2) *C-5-DC Downtown Core Subdistrict.*

(i) The purpose of the C-5-DC Downtown Core Subdistrict is to establish these standards for structures located within the majority of Downtown.

- (ii) The standards recognize that this subdistrict is to be the most intensely developed portion of Downtown and is to be predominately pedestrian-oriented in nature.

(3) *C-5-IH Inner Harbor Subdistrict.*

- (i) The purpose of the C-5-IH Inner Harbor Subdistrict is to establish these standards for structures located adjacent to and facing the Inner Harbor.
- (ii) The standards recognize that development within this subdistrict is to be oriented to the Inner Harbor waterfront and be predominantly pedestrian-oriented. Development is relatively low-scaled to accommodate the view of the harbor from adjoining subdistricts.

(4) *C-5-DE Downtown East Subdistrict.*

- (i) The purpose of the C-5-DE Downtown East Subdistrict is to establish these standards for structures within a high intensity waterfront-oriented area.
- (ii) The standards recognize that this area is to contain intense levels of development to create a high density, walkable, mixed-use environment where careful placement of structures affords visual access to the waterfront as well as pedestrian access within.
- (iii) Because this subdistrict is adjacent to lower density neighborhoods of historic and traditional character, the intensity and height of development on the periphery of the subdistrict are intended to provide a transition between the core of this subdistrict and the adjacent neighborhoods.

(5) *C-5-HT Downtown Historic and Traditional Subdistrict.*

- (i) The purpose of the C-5-HT Downtown Historic and Traditional Subdistrict is to establish these standards for structures in an area of Downtown containing substantial historic and traditional architecture that has evolved since the founding of the City.
- (ii) Given the character of that development, this district is designed to require relatively low heights and the use of materials that reflect the existing development context.

(6) *C-5-TO Downtown Traditional Office Subdistrict.*

The purpose of the C-5-TO Downtown Traditional Office Subdistrict is:

- (i) to establish these standards for structures in an area that primarily consists of early 20th Century office development; and
- (ii) to seek to maintain a distinctive and desirable environment.

(7) *C-5-HS Howard Street Mixed-Use Subdistrict.*

The purpose of the C-5-HS Howard Street Mixed-Use Subdistrict is to establish these standards for structures to facilitate a transition between the intensive development of

the Downtown core and the more modest-scale development found in adjacent, primarily residential environments.

(8) *C-5-G Government Center Subdistrict.*

- (i) The purpose of the C-5-G Government Center Subdistrict is to establish these standards for structures that reflect the scale of major governmental buildings located within the district.
- (ii) The intent is to ensure that future development reflects the existing scale of development and maintains critical views of these public buildings from the adjacent areas.

TITLE 12
SPECIAL PURPOSE DISTRICTS

SUBTITLE 1
PURPOSE OF TITLE

§ 12-101. In general.

The purpose of this title is to set out the use regulations, bulk and yard regulations, and other standards for:

- (1) Office-Residential Zoning Districts;
- (2) Transit-Oriented Development Zoning Districts;
- (3) Educational Campus Zoning Districts;
- (4) Hospital Campus Zoning Districts;
- (5) Transportation Zoning Districts;
- (6) *{Reserved}*
- (7) Waterfront Overlay Zoning Districts;
- (8) Rowhouse Mixed-Use Overlay Zoning Districts;
- (9) Detached Dwelling Mixed-Use Overlay Zoning Districts;
- (10) Adult-Use Overlay Zoning Districts; and
- (11) Port Covington Zoning District.

(Ord. 16-581; Ord. 17-015.)

§ 12-102. Purpose of overlay districts.

An overlay district is a district, established by ordinance, by which a layer of regulations is superimposed on the regulations of an underlying zoning district. The overlay district is intended to modify or supplement the regulations of its underlying zoning districts in recognition of unique circumstances in the area, while maintaining the general character and purpose of the underlying zoning districts over which it is located.

(Ord. 17-015.)

SUBTITLE 2
DISTRICT DESCRIPTIONS

§ 12-201. OR Office-Residential Districts.

OR Office-Residential Zoning Districts are intended for areas where there is a mix of office and residential uses. The regulations for these Districts are designed to ensure that office uses remain compatible with residential uses, thereby permitting the area to maintain a more residential character.

(Ord. 16-581; Ord. 17-015.)

§ 12-202. TOD Transit-Oriented Development Districts.

The purpose of TOD Transit-Oriented Development Zoning Districts is to encourage the location of uses and forms of development conducive to increased transit usage. These Districts are intended to promote new, well-integrated residential and commercial development around transit stations, to ensure that new development occurs in the form of compatible, higher density, transit-friendly design in close proximity to transit systems, to encourage a pedestrian-orientation in new development, to decrease reliance on motor vehicles by increasing transit uses, and to encourage a mix of buildings and activities that provides settings for social interaction and active community life. In order to address the different characteristics of transit locations within the City, 4 TOD Districts are established: the TOD-1 District, TOD-2 District, TOD-3 District and the TOD-4 District. The primary distinctions among these 4 TOD Districts are height, residential density, and use mix.

(Ord. 16-581; Ord. 17-015..)

§ 12-203. EC Educational Campus Districts.

EC Educational Campus Zoning Districts are intended for the campuses of educational facilities to facilitate an orderly and efficient regulation process for these types of users. There are 2 Educational Campus Zoning Districts: a campus district for colleges and universities that allows for certain non-educational uses and dormitories for students and a second campus for primary and secondary educational facilities that is restricted to education-related uses. These Districts provide a set of base district regulations that offers a certain intensity of development by right. They also provide an allowance for a Campus Master Plan, which must be approved by ordinance, that allows for flexibility in the development and expansion of the campus above the base district regulations.

(Ord. 16-581; Ord. 17-015..)

§ 12-204. H Hospital Campus Districts.

H Hospital Campus Zoning Districts are intended to address the special needs and impacts of large-scale, multi-functional hospitals and medical campuses, including hospital-related and support service uses, such as offices and commercial uses. These Districts provide a set of base district regulations that offers a certain intensity of development by right. They also provide an allowance for a General Development Plan, which must be approved by ordinance, that allows for flexibility in the development and expansion of the hospital campus above the base district regulations.

(Ord. 16-581; Ord. 17-015..)

§ 12-205. T Transportation Districts.

T Transportation Zoning Districts are intended to preserve, protect and enhance road, rail and other transportation corridors within the City.
(*Ord. 16-581; Ord. 17-015..*)

§ 12-206. {Reserved}**§ 12-207. W Waterfront Overlay Districts.**

W Waterfront Overlay Zoning Districts are intended to preserve, create, and enhance public views of and access to the waterfront and creatively encourage use of the waterfront by providing a waterfront promenade, including connections to nearby public rights-of-way, open spaces, and other public amenities. These Districts serve to establish a process to encourage new waterfront development to occur in a manner that seeks to minimize substantial change to existing public views of the waterfront from adjacent public streets and neighborhoods, and to enhance the existing waterfront promenade by creating a continuous public access via a promenade along non-industrial portions of the City's waterfront.
(*Ord. 16-581; Ord. 17-015..*)

§ 12-208. R-MU Rowhouse Mixed-Use Overlay Districts.

R-MU Rowhouse Mixed-Use Overlay Zoning Districts are intended to address those areas of rowhouse development where a mixed-use environment is desired, where some rowhouse structures are used for residential uses and others for first-floor commercial uses. These Overlay Districts are tied directly to the underlying rowhouse district in order to maintain the existing character of the development and the neighborhood. Commercial uses are restricted to only those uses that are compatible with residential uses.
(*Ord. 16-581; Ord. 17-015..*)

§ 12-209. D-MU Detached Dwelling Mixed-Use Overlay Districts.

D-MU Detached Dwelling Mixed-Use Overlay Zoning Districts address those areas of detached dwelling development where a mixed-use environment is desired, where some detached dwellings are used for residential uses and others for first-floor non-residential uses. These Overlay Districts are tied directly to the underlying detached residential district in order to maintain the existing character of the development and the neighborhood. Non-residential uses are restricted to only those uses that are compatible with residential uses.
(*Ord. 16-581; Ord. 17-015..*)

§ 12-210. AU Adult Use Overlay Districts.

AU Adult Use Overlay Zoning Districts are intended to provide areas in which to operate an adult use.
(*Ord. 16-581; Ord. 17-015..*)

§ 12-211. PC Port Covington Zoning District.

The Port Covington Zoning District is intended to establish the standards to accommodate the transition of the Port Covington area, located along the north shore of the Middle Branch of the Patapsco River, from a heavy industrial area to a high intensity, mixed-use, waterfront-oriented area over time. The standards recognize that this area is unique because of both its waterfront access and separation from established neighborhoods to the north by the elevated portion of I-95 and a heavy rail line. The Port Covington Zoning District is designed to accommodate an office-industrial headquarters campus and adjacent high-intensity mixed-use with recreational and entertainment amenities to promote a live-work-play community within an ecologically sustainable environment. - (1) In addition to the uses allowed by the underlying zoning districts, on waterfront lots within the W-1 Overlay Subdistrict, a continuous public access waterfront promenade, accessible to the public but built and maintained by the owners of the underlying land, must be provided on lots, or development parcels consisting of lots, that adjoin the waterline of the Inner Harbor of the Chesapeake Bay and, where applicable, the Middle Branch of the Patapsco.
- (2) A public access promenade must be established by an easement at least 30 feet wide, unless otherwise shown on *Tables 12-903(1)-(4)*, of which at least 12 feet must be a permanently constructed promenade. Those areas of the 30-foot public easement that do not consist of permanently constructed promenade must be landscaped and maintained in a manner that is visible to the public and in accordance with the Landscape Manual. Where it can be demonstrated that it is functionally justified, the Director of Planning may allow a promenade or easement of lesser width. Promenade easements must be recorded by the property owner within 1 month of their approval and a copy of the recordation receipt provided to the Director of Planning.
- (3) These required easement improvements must be built and maintained by the property owner. Public access must be available 24 hours a day, 7 days a week unless otherwise agreed to by the Director of Planning and stated in the easement. The completion of the promenade easement area must coincide with the completion of the adjacent development on the property.
- (4) Public access corridors are connections between public streets adjoining a waterfront property and the promenade established on the property. All public access corridors must be included in the pedestrian promenade easements for the property in which they are located. The widths of the required corridors may vary but must be at least 12 feet wide. The corridors must be open to the public 24 hours a day, 7 days a week, unless otherwise agreed to by the Director of Planning and stated in the easement, and free of gates or other impeding obstacles. Adequate lighting of these corridors, consistent with the promenade, is required.
- (5) No motor vehicles are permitted to use or cross the promenade, unless for emergency or invasive repair purposes. Any proposed road crossing of the promenade, either public or private, requires Planning Commission approval.
- (6) No mechanical or service equipment may be located adjacent to the promenade easement unless it is within an enclosed structure or otherwise screened from public view in accordance with the requirements of the Baltimore City Landscape Manual.

(b) *W-2 Overlay Subdistrict.*

- (1) In addition to the uses allowed by the underlying zoning districts, on waterfront lots within the W-2 Overlay Subdistrict, a conservation easement, accessible to the public but built and maintained by the owners of the underlying land, must be provided on lots, or development parcels consisting of lots, that adjoin the waterline of Middle Branch of the Patapsco.
- (2) A buffer that provides a vegetated habitat area must be established by an easement at least 100 feet wide landward from the mean high water line of tidal waters or from the edge of tidal wetlands and tributary streams, and must be vegetated as specified by the Critical Area Management Program. A 12-foot wide hiking and biking trail must be constructed in this area.
- (3) (i) To allow flexibility for development while preserving and creating habitat, the Director of Planning may approve a reduction of the 100-foot wide buffer to not less than 50 feet (from the mean high water line) if:
 - (A) the areas of impact are replaced with areas elsewhere on the sites controlled by the same developer; or
 - (B) there is an outfall or other limiting physical condition, as indicated on the zoning map.
- (ii) The replacement areas must be:
 - (A) of equal or greater size than the area being transferred and placed under easement; and
 - (B) adjoining a habitat area.
- (iii) Both the transferred habitat area and the contiguous habitat area must be properly vegetated as specified by the Critical Area Management Program.
- (4) Stormwater from the entire site must be managed to prevent negative impacts to the buffer.
- (5) The hiking and biking trail, together with a 12-foot hard surface and a meadow or mown strip a maximum of 3 feet wide on either side, must be at least 50 feet from the mean high tide line. Public access corridors to the trail must be provided and included in the easements for the property where they are located. The trail on any given property must connect to the trail on adjoining properties. The trail takes the place of the promenade and these hard surfaces are exempt from the Critical Area buffer requirement, but are not exempt from stormwater requirements.
- (6) Access to the water as part of the trail system is encouraged, and must be approved by the Director of Planning.
- (7) Easements for the buffer and the hiking and biking trail must be recorded by the property owner once approved and a copy of the easements, stamped at the courthouse, provided to the Director of Planning.

- (8) These required easement improvements must be built and maintained by the property owner. Public access on private property is subject to reasonable rules and regulations adopted by the property owner and included in the easement. The completion of the easement area must coincide with the completion of the adjacent development on the property.
 - (9) The shoreline must be maintained as a naturally vegetated buffer. No new bulkheads or rip-rap may be constructed and any existing bulkheads or rip-rap must be removed to the greatest extent possible as development occurs. Additionally, wetland marsh creation, restoration, and preservation are encouraged.
 - (10) Any work done in designated habitat protection areas, resource conservation areas, or existing vegetated buffers must be scheduled so that it does not disturb the reproductive cycles of fish or wildlife.
 - (11) No motor vehicles are permitted to use or cross the hiking and biking trail, unless required for an emergency or for trail or buffer maintenance purposes.
 - (12) No mechanical or service equipment may be located adjacent to the conservation easement unless it is within an enclosed structure or otherwise screened from public view in accordance with the requirements of the Baltimore City Landscape Manual.

SUBTITLE 13. PORT COVINGTON DISTRICT**§ 12-1301. Subdistricts.**

4 Subdistricts are established to accommodate and encourage redevelopment of the Port Covington area, along the north shore of the Middle Branch of the Patapsco River, as follows:

- (1) The PC-1 Subdistrict is characterized by commercial use, entertainment, attractions, open-space, waterfront, and recreation amenities that create a focal point within the Port Covington Zoning District. The standards recognize that development within this subdistrict is to be ecologically sustainable, oriented to both the street edges and the Middle Branch Waterfront, and predominantly pedestrian-oriented. Development is generally mid-scale to promote connectivity between the waterfront and adjoining subdistricts.
- (2) The PC-2 Subdistrict is characterized by a wide mix of uses, including residential, commercial, office, open-space, recreation, and entertainment amenities, waterfront, and light industrial in a dense urban setting. The standards recognize that the development in this subdistrict is to accommodate a high-density, walkable, mixed-use environment.
- (3) The PC-3 Subdistrict is characterized by a wide mix of uses, including residential, commercial, office, open-space, recreation, and entertainment amenities, as well as industrial uses as part of a live-work-play community. The standards recognize that this subdistrict is designed to accommodate the transition from an historically industrial area to a medium-density, walkable, mixed-use environment.
- (4) The PC-4 Subdistrict is characterized as an office-industrial campus on the waterfront that can accommodate the international headquarters of a major corporation. The standards are intended for architecturally coordinated office and industrial structures built in a campus-like atmosphere, which includes a focus on recreation amenities. This subdistrict provides standards to promote ecologically sustainable design and accommodate a high-density, walkable environment for this waterfront campus.

§ 13-203. Approval standards.

(a) *In general.*

In reviewing a planned unit development:

(1) the conditional use standards of § 5-405(a) {"Conditions: In general"} and § 5-406 {"Approval standards"} of this Code apply; and

(2) the following additional factors must be considered:

- (i) whether the planned unit development is in general conformance with all elements of the Comprehensive Master Plan, and the character and nature of existing and contemplated development in the vicinity of the proposed planned unit development;
- (ii) whether the planned unit development will preserve unusual topographic or natural features of the land, and the design of the planned unit development will best utilize and be compatible with the topography of the land;
- (iii) whether the physical characteristics of the planned unit development will not adversely affect future development or the value of undeveloped neighboring areas, or the use, maintenance, or value of neighboring areas already developed;
- (iv) whether the planned unit development will provide the same protection as the basic district regulations in regard to fire, health hazards, and other dangers;
- (v) whether the planned unit development will encourage innovative design features or adaptive reuse of structures that would not be possible by application of the basic district regulations; and
- (vi) whether the planned unit development is compatible with any nearby industrial district.

(b) *Required findings.*

The planned unit development may be approved only if there are findings that:

(Ord. 16-581.)

§ 13-204. Exceptions from district regulations.

(a) Considerations

In determining whether to grant an exception from district regulations, the Planning Commission and City Council must consider whether the exception will:

- (1) enhance the overall merit of the planned unit development;
- (2) promote the objectives of both the City and the development;
- (3) enhance the quality of the design of the structures and the site plan;
- (4) enable the development to offer environmental and pedestrian amenities;
- (5) not cause such an adverse impact on neighboring properties so as to outweigh the benefits of the development;
- (6) not negatively affect the value and enjoyment of surrounding property, the provision of municipal services, or the flow of traffic;
- (7) be compatible with the land use policies of the Comprehensive Master Plan;
- (8) provide a substantial public benefit to the City, as illustrated in subsection (d) of this section; and
- (9) allow uses that predominantly match or are compatible with uses allowed in the underlying zoning district and the zoning districts of adjacent properties.

(b) Required Superior design and amenities.

To be granted an exception, the applicant must demonstrate superior design and enhanced amenities.

(c) Required benefit to City.

In no case may any exception be granted unless the applicant demonstrates a substantial benefit to the City.

(d) Examples of substantial benefit to City.

Examples of substantial benefits to the City are as follows:

- (1) use of sustainable design and architecture, such as green roofs, white roofs, and other energy efficient design concepts, new building technologies, and qualifying as a Leadership in Energy and Environmental Design (“LEED”) or LEED-equivalent structure;
- (2) enhanced design characteristics, including mixed-use development, circulation systems that utilize alleys or traffic-calming techniques, and a pedestrian-oriented environment;
- (3) community amenities, including plazas, malls, formal gardens, places to congregate, outdoor seating, public art, and pedestrian and transit facilities;
- (4) preservation of natural areas and site design that is sensitive to environmental features;
- (5) historic preservation and adaptive reuse of historic structures;
- (6) additional open-space and recreational amenities, such as recreational open space and playgrounds, including athletic fields, dog parks, natural water features, and conservation areas;
- (7) additional public infrastructure improvements, in addition to the minimum needed by the planned unit development, such as new or repaved streets, bicycle paths, gutters and sewers, and traffic control devices to improve traffic flow;
- (8) senior housing set-aside;
- (9) affordable housing set-aside;
- (10) provision of accessible dwelling units with accessible features beyond those required by the Americans with Disabilities Act or any other applicable codes; and
- (11) provision of public car or bike share facilities.

(Ord. 16-581.)

§ 13-205. Repeal of PUDs.

In determining whether to approve the repeal of a planned unit development, the Planning Commission and the City Council must find that:

- (1) the repeal of the planned unit development is in the public interest; and
- (2) the approved final development plan of the planned unit development:
 - (i) has been substantially completed;
 - (ii) is no longer necessary in light of the property's underlying zoning;
 - (iii) is no longer consistent with the City's Master Plan; or
 - (iv) has been abandoned by the property owner.

(Ord. 19-252.)

(a) *In general.*

- (1) In this subsection, “street wall” means the wall of a building nearest to and facing a street.
- (2) For purposes of determining compliance with height limitations, the height of a building is determined by measuring the vertical distance:
 - (i) from the following, as applicable:
 - (A) from the mean curb level of the right-of-way on which the property fronts;
 - (B) if the front wall of the building is not within 30 feet of the curb, from the average elevation of the ground between that wall and the curb; or
 - (C) if the building is in a Regulated Flood-Hazard Area (as defined in and subject to City Code Article 7 {“Natural Resources”}, Division I {“Floodplain Management”}), from the required design-flood elevation (also as defined in and subject to Article 7, Division I); and
 - (ii) to the following, as applicable:
 - (A) in the case of a flat roof, to the highest point of the roof that adjoins the street wall; or
 - (B) in the case of a pitched roof, to the mean height level of the roof as measured between the eaves and the peak in the case of pitched roofs.

(b) *Exclusions from height regulations.*

The height regulations of this Code do not apply to the following:

- (1) belfries, chimneys, cupolas, domes, grain elevators, fire escapes, flagpoles, flues, minarets, monuments, spires, stacks, steeples, ventilators, and utility poles;
- (2) water towers or tanks other than those located on the roof of a structure;
- (3) bulkheads, cooling towers, elevator enclosures, monitors, elevator or stairway penthouses, skylights, stage towers and water tanks, and air conditioning units, as long as these structures do not occupy more than 25% in the aggregate of the area of the roof of the structure on which they are located;

(Ord. 16-581; Ord. 17-015.)

§ 15-402. Inclusionary housing adjustment.

For a residential project that, under City Code Article 13, § 2B-22(c) {"Project benefitting from significant land use authorization or rezoning"} or § 2B-23(c)(1) {"30 or more units: Cost-offsets"}, is entitled to bonus units, the lot area per dwelling unit otherwise required by this Code is reduced to the extent needed to accommodate those bonus units.

(Ord. 16-581.)

§ 15-403. Rear yard reduction.

(a) *In general.*

For a lot that is less than 100 feet deep, the depth of a rear yard required for a dwelling may be reduced 1% for each 1 foot that the lot is less than 100 feet deep, subject to the limitations and requirements of this section.

(b) *Maximum reduction.*

A reduction under this section may not exceed the following:

- (1) in the case of an existing detached or semi-detached dwelling that is located in a business district, two-thirds of the required depth; and

These building heights control in place of the building height regulations of the underlying zoning district.

(b) *Other limitations.*

Within the boundaries indicated in *Table 15-405* for the Mount Vernon Neighborhood:

- (1) when calculating the height of a building for compliance with height limitations, mechanical equipment, including heating, ventilation, and air-conditioning units, on top of the building are included in that calculation;

SUBTITLE 5
ACCESSORY STRUCTURES AND USES

§ 15-501. General regulations.

An accessory structure or use must be limited to and located on the same lot with the use of the principal structure to which it is accessory.

- (b) *Maximum coverage of required rear yard.*

The total area of all accessory structures may not occupy more than 50% of the area of a required rear yard.

- (c) *Maximum height.*

Unless otherwise permitted or restricted by this subtitle, no accessory structure may exceed 15 feet in height.

No accessory structure may be erected on any lot before construction of the principal structure to which it is accessory.

- (f) *Effect of attachment to principal.*

If an accessory structure, such as an attached garage, is attached to a principal structure by any wall or roof construction, it is considered to be a part of the principal structure and must comply in all respects with the requirements of this Code that apply to the principal structure.

(Ord. 16-581.)

§ 15-502. Amateur (ham) radio equipment.

- (a) *“Amateur ... radio equipment” defined.*

(2) “Amateur (ham) radio equipment” includes:

(i) a tower or tower-like structure supporting a single, radiating antenna platform; and

(ii) other broadcasting equipment.

(b) *Requirements for towers,*

Towers that solely support amateur (ham) radio equipment and conform to all applicable performance criteria as set forth in Subtitle 7 of this Title are permitted in the required rear yard. Towers may not exceed the maximum building height of the applicable district, unless a taller tower is technically necessary to engage successfully in amateur radio communications in accordance with subsection (e) of this section. In the single-family residential districts, all towers must be set back 10 feet from any lot line.

(c) *Exception for stealth design.*

- (1) Certain additional types of antenna systems that are not freestanding towers are permitted in any yard if they implement stealth design and receive design review approval.
- (2) To qualify as a stealth design, antennas must be within an enclosed structure or otherwise screened from public view in accordance with the requirements of the Baltimore City Landscape Manual.

(d) *Minimizing antennae visibility.*

Antennae may be ground-, building- or roof-mounted. Every effort must be made to install radio antennae in locations that are not readily visible from neighboring properties or from the public right-of-way, excluding alleys.

(e) *Exceeding height limits.*

An antenna or tower that is proposed to exceed the height limitations is a conditional use. The operator must provide evidence that a taller tower or antenna is necessary to engage successfully in amateur radio communications. In addition, the applicant must provide evidence that the tower or antenna is not a hazard to birds (i.e., minimal chance of bird strikes). The tower or antenna must conform to all applicable performance criteria as set forth in Subtitle 7 of this title. As part of the application, the applicant must submit a site plan showing the proposed location of the tower or antenna, as well as its relation to the principal building and any additional accessory structures.

(f) *Exemption for City-owned and -operated antennae, towers.*

Antennae and towers owned and operated by the City are exempt from these requirements. (Ord. 16-581; Ord. 17-015.)

In addition, no exterior lighting may be used in any manner that could interfere with the safe movement of motor vehicles on public streets. The light level may not be greater than one-half footcandle at a residential property line and 1 footcandle at any non-residential property line or public right-of-way line.

- (2) Specifically, the following types of light trespass are prohibited:

- (i) any light not designed for roadway illumination that produces direct or reflected glare that could disturb the operator of a motor vehicle;
- (ii) any light that may be confused with, or construed as, a traffic control device, except as authorized by federal, state, or local government.

- (3) Exterior lighting must be designed as down-lighting. Shielded lighting, unless specifically permitted by subsection (c) of this section, is required.

(c) *Unshielded lighting prohibited; Exceptions.*

The use of unshielded lighting, including incandescent light bulbs hung or strung on poles, wires, or any other type of support, are prohibited, except on a temporary basis in areas where approved carnivals, fairs, or other similar activities are held and only while those activities are taking place.

(d) *Height limits.*

(1) The maximum height of light poles on private property, as measured from grade at the base to the bottom of the luminaire, is as specified below. These standards do not apply to public right-of-way lighting. Permitted light pole heights are as follows.

(2) For non-residential uses:

(i) Light poles and building-mounted fixtures must be designed with fully shielded luminaires. These poles or mounts may not exceed 25 feet in height.

(ii) Light poles for outdoor recreational facilities may not exceed 35 feet in height. Exterior lighting for outdoor recreation areas is subject to design review. Light poles for outdoor recreational facilities that exceed 35 feet in height are conditional uses.

(3) For residential uses:

(i) Light poles for single-family detached and semi-detached dwellings and rowhouse dwellings may not exceed 6 feet in height.

(ii) Light poles for multi-family uses may not exceed 12 feet in height.

(c) *Limit on non-family employees.*

No more than 1 individual other than a family member residing on the premises may be employed as part of a home occupation.

(d) *Limits on client or customer visits, traffic generation, etc.*

The use may not create additional pedestrian, automobile, or truck traffic in excess of the normal amount typical for the area. Client or customer visits to the site are limited to no more than 3 a day and 10 a week. No more than 1 truck or van, whose capacity may not exceed 1 ton, may be used in any manner with the home occupation. Vehicles may not contain advertising for the home occupation.

(e) *Delivery methods.*

The receipt, sale, or shipment of deliveries is not permitted on or from the premises, with the exception of regular U.S. Mail or a shipping service that is characteristic of service to residential neighborhoods.

(f) *Limits on noise, glare, odors, outside storage or displays, etc., prohibited.*

A home occupation may not generate noise, solid waste, vibration, glare, fumes, odors, or electrical interference beyond what normally occurs in a residential use. No outside storage or display of materials, merchandise, inventory, or heavy equipment is permitted.

(g) *Limits on exterior alterations.*

No exterior alteration that changes the residential character of the principal building is permitted.

(h) *{Reserved}*

(i) *Motor vehicle repair or service prohibited.*

Any type of motor vehicle repair or service is a prohibited home occupation.

The outdoor sales or display of the following merchandise is prohibited: tires, mattresses, furniture, appliances, and dirt bikes.

(c) *Using public right-of-way.*

No sales or display area is permitted in any public right-of-way unless a minor privilege permit is obtained.

(d) *Outdoor storage.*

Outdoor storage of goods not offered for sale is prohibited, as provided in § 15-510 {"Outdoor storage"} of this subtitle.

(e) *Using parking area.*

A portion of the establishment's parking area that is in excess of and not needed to meet the establishment's off-street parking requirements may be used for outdoor sales and display on a temporary basis only, in terms of both display structure and goods displayed or sold (no permanent display structures permitted in parking areas). However, no more than 10% of the portion that exceeds and is not needed to meet parking requirements may be used for the temporary outdoor sales and display.

(f) *Screening area abutting residential district.*

If the rear or interior-side yard of an outdoor sales and display area abuts a Residential District, the area must be screened from public view in accordance with the requirements of the Baltimore City Landscape Manual.

(g) *Screening vehicle display.*

If an outdoor sales and display lot of a motor vehicle or recreational vehicle dealership or rental establishment abuts a public right-of-way, other than an alley, the lot must be screened in accordance with the requirements of the Baltimore City Landscape Manual.

(Ord. 16-581; Ord. 17-015.)

§ 15-511. Parking garages (residential).**(a) *In general.***

The following design standards apply to all residential parking garages. Attached garages are not considered an accessory structure but are subject to the design standards and regulations of this section for attached garages.

(b) *Front-loaded attached garages.*

- (1) Front-loaded attached garages are discouraged. New front-loaded attached garages are prohibited where rear or side access to the lot is available, and restricted to areas in which the City's curb cut policy would allow for a curb cut to access the garage. Rear-loaded and side-loaded attached garages are preferred.
- (2) Front-loaded attached garages may not occupy more than 50% of the width of the front facade of the dwelling, as measured along the building line that faces the street.
- (3) Front-loaded attached garages must be located at least 5 feet behind the main front facade of the dwelling. This measurement must be taken from the part of the front facade that adjoins the garage, except that the measurement may be taken from the part of the house closest to the street if all of the following conditions are met:
 - (i) the front facade of the house is irregular, i.e., the front foundation is not a straight line;
 - (ii) the portion closest to the street is actual living space; and
 - (iii) the measurement is not taken from a porch, bay window, turret, or similar architectural feature that protrudes from the facade.
- (4) Windows, doors, and roof treatments of that part of a front-loaded attached garage facing the street must incorporate architectural detail expressive of a residence.
- (5) Upper level dormers and pitched roof elements must be used to de-emphasize a front-loaded attached garage. Garage openings, windows, columns, trims, decorative paneling, and color must de-emphasize the visual impact of the garage in relation to the building as a whole.

(c) *Detached garages.*

- (1) Detached garages are permitted in the rear yard and must be accessed from the rear of the lot if rear access is available. Detached garages accessed from the front of the lot are restricted to areas in which the City's curb cut policy would allow for a curb cut to access the garage.

(2) “Recycling collection station” includes receptacles for the collection of leaf and yard waste.

(b) *Standards.*

Recycling collection stations are conditional uses, subject to the following standards:

- (i) solid wood or simulated wood screen fence;
- (ii) opaque masonry wall (stone, stucco, or brick); or
- (iii) principal structure wall.

(2) The materials used for the enclosure must complement the architecture of the principal structure.

(3) The enclosure must be gated.

(d) *Enclosure of containers – Use of exterior wall extension.*

An extension of an exterior principal structure wall may be used as one of the 3 walls for enclosing a refuse disposal container as long as the extension meets the minimum 6-feet high requirement and is of the same building materials as the principal structure.

(e) *Qualified exception for on-site construction.*

(1) This section does not apply to a refuse disposal container used as part of on-site construction as long as:

(i) the container is maintained on the construction site; or

(ii) a minor privilege permit is obtained to allow the container on the public right-of-way.

(1) Satellite dish antennas must be permanently installed on a building, in the ground or on a foundation, and may not be mounted on a portable or movable structure.

(2) Subject to operational requirements, the dish must be of a neutral color, such as white or grey, to blend with the surroundings as best as possible. No signs are permitted on the satellite dish.

(3) Compliance with all federal, state and local regulations is required in the construction, installation, and operation of satellite dish antennas.

(4) All exposed surfaces of the antenna must be kept clean and all supports must be painted to maintain a well-kept appearance. Antennas no longer in use must be removed.

(b) *Small satellite dish antennas.*

(1) Satellite dish antennas that are 1 meter or less in diameter (“small dish antennas”) are subject to the general requirements of subsection (a) of this section.

(2) Satellite dishes are not permitted on any facade that adjoins a street unless a report is submitted to verify that this facade is the only location that receives an adequate signal.

(c) *Large satellite dish antennas.*

(1) *In general.*

Satellite dish antennas that are more than 1 meter in diameter (“large dish antennas”) are subject to the general requirements of subsection (a) of this section.

(2) *Residential districts.*

(i) In residential districts, a large dish antenna is allowed only in the rear yard, and must be set back from all lot lines a distance that is at least equal to the height of the dish, but in no case less than 5 feet. Roof-mounting is prohibited.

- (ii) The overall height of a large dish antenna cannot exceed 12 feet.
- (iii) A large dish antenna must be screened from public view in accordance with the requirements of the Baltimore City Landscape Manual.

(3) *Non-residential districts.*

- (i) In non-residential districts, a large dish antenna is allowed only in the rear or interior-side yard and must be set back from all lot lines a distance that is at least equal to the height of the dish, but in no case less than 5 feet.
- (ii) Roof-mounting is allowed in non-residential districts only if the large dish antenna is in scale with the overall building mass and location and is screened by an architectural feature. The visible portion of the dish may not exceed 25% of the corresponding height or width of the screen.

(Ord. 16-581; Ord. 17-015; Ord. 18-216.)

§ 15-517. Alternative energy systems: Solar.

(a) *Building permit requirements.*

Building permit applications for solar alternative energy systems must be accompanied by a line drawing of the electrical components in sufficient detail to allow for a determination that the manner of the installation conforms to all electrical codes.

(b) *Height, setback limitations – In general.*

- (1) Solar alternative energy systems must be installed to rise no more than 42 inches from a roof surface.
- (2) A roof-mounted solar alternative energy system is considered a permitted height exception and is not subject to the building height limitations of the district.
- (3) In the case of a flat roof, solar alternative energy systems must be setback 3 feet from the front facade.

(c) *Height, yard, and setback limitations – Ground-mounted.*

- (1) A ground-mounted solar alternative energy system is permitted in all yards and must be at least 3 feet from any lot line.
- (2) Ground-mounted solar alternative systems are subject to the following height limitations:
 - (i) for a commercial alternative energy system, the system may not exceed 15 feet in height; and

(ii) for a community-based or private alternative energy system:

(A) a system located in a side or rear yard may not exceed 10 feet in height; and

(B) a system located in a front yard may not exceed 30 inches in height.

(d) *Screening and safety – Ground-mounted.*

All ground-mounted systems must:

(1) be screened from public view in accordance with the requirements of the Baltimore City Landscape Manual; and

(2) display warning signs indicating voltage and dangers.

(Ord. 16-581; Ord. 17-015.)

§ 15-518. Alternative energy systems: Wind.

(a) *Building permit requirements.*

Building permit applications for wind energy systems must be accompanied by a line drawing of the electrical components in sufficient detail to allow for a determination that the manner of the installation conforms to all electrical codes.

(b) *Height limitations.*

(1) The maximum height of any ground-mounted wind energy system is 65 feet or 20 feet above the tree line, whichever is greater.

(2) The maximum height of any roof-mounted wind alternative energy system mounted on a detached accessory structure is 15 feet above the maximum permitted height for that structure.

(3) The maximum height of any roof-mounted wind energy system mounted on a principal structure is 10 feet above the maximum permitted height for that structure. However, this limitation does not apply to principal structures over 175 feet in height, in which case there is no limit on the height of a roof-mounted wind alternative energy system.

(4) For purposes of this section, maximum height is the total height of the turbine system, including the tower and, if designed with turbine blades, the maximum vertical height of the turbines blades. Maximum height is therefore calculated by measuring the length of a prop at maximum vertical rotation to the base of the tower. The maximum height of any ground-mounted wind energy system is measured from the length of a prop at maximum vertical rotation to grade.

(5) If turbine blades are part of the system, no portion of the turbine blades may be within 20 feet of the ground.

(c) *Yard and setback limitations.*

- (1) Ground-mounted wind alternative energy systems may be located in the rear yard only.
- (2) No part of the wind system structure, including guy wire anchors, may extend closer than 10 feet to any lot line. The system tower must be setback from all lot lines equal to the height of the system.

(d) *Blade speed controls.*

All wind alternative energy systems must be equipped with manual (electronic or mechanical) and automatic over-speed controls to limit the blade rotation speed to within the design limits of the wind alternative energy system.

(e) *Noise limitations.*

- (1) Except as provided in this subsection, wind alternative energy systems may not exceed 60 dBA, as measured at the closest neighboring inhabited dwelling.
- (2) This level, however, may be exceeded during short-term events, such as utility outages or severe windstorms.

(f) *Small-wind certification.*

- (1) Wind turbines must be certified by a small-wind certification program recognized by the American Wind Energy Association or the U.S. Department of Energy.
- (2) Alternatively, for a non-certified wind turbine, the applicant must submit to the Building Official a description of the safety features of the turbine prepared by a registered mechanical engineer.

(g) *Compliance with FAA regulations.*

Wind alternative energy systems must comply with applicable FAA regulations, including any necessary approvals for installations close to airports.

(h) *Notice to utility.*

No wind alternative energy system may be installed until evidence has been submitted to the Building Official that the utility company has been informed of the customer's intent to install an interconnected customer-owned generator.

(*Ord. 16-581.*)

SUBTITLE 7
PERFORMANCE STANDARDS

§ 15-701. Purpose.

The performance standards in this subtitle are designed to promote and protect commercial districts, business areas, and the IMU-1 and -2 and I-1 Districts, as light industrial areas, thereby promoting and maintaining the most appropriate and beneficial use of these areas. The application of these standards protect business and residential areas in or adjacent to a commercial district or an IMU-1 or -2 or I-1 District from adverse effects that might otherwise result from the operation of the uses allowed in those districts.

(Ord. 16-581; Ord. 17-015; Ord. 19-244.)

§ 15-702. Applicability of standards.

(a) In general.

Except as specified in subsection (b) of this section, the performance standards in this subtitle apply to:

- (1) all uses in an IMU-1 and -2 and an I-1 District; and
- (2) all activities in a commercial district that involve the production, processing, cleaning, servicing, testing, or repair of materials, goods, or products.

(b) Qualified exception for previously established uses.

Uses lawfully established before these performance standards were enacted or extended to apply to the district in which they are located need not comply with the standards. However, if that use is later expanded, the expansion must comply with all applicable performance standards.

(Ord. 16-581; Ord. 17-015; Ord. 19-244.)

§ 15-703. Environmental performance standards.

(a) In general.

All uses in the commercial districts and the IMU-1 and -2 and I-1 Districts must be operated so as to comply with the performance standards described in this section. In addition to these performance standards, all uses must be constructed, maintained, and operated so as not to be injurious to the use and occupation of the adjacent premises by reason of the emission or creation of noise, vibration, radiation, fire, explosive hazard, or glare. Nothing in this section may be construed to alter, change, modify, or abrogate any authority granted exclusively to any state or federal regulations.

(b) Noise.

No activity or use may be conducted in a manner that generates a level of sound as measured on another property greater than that allowed by federal, state, or local regulations. These

limits do not apply to construction noises, noises emanating from safety signals or warning devices, noises not directly under the control of the owner or occupant of the property, or transient noises from moving sources, such as motor vehicles, railroads, or aircraft.

(c) *Glare and heat.*

Any activity or the operation of any use that produces glare or heat must be conducted so that no glare or heat from the activity or operation is detectable at any point off the lot on which the use is located. Flickering or intense sources of light must be controlled or shielded so as not to cause a nuisance across lot lines.

(d) *Vibration.*

No earthborne vibration from the operation of any use may be detectable at any point off the lot on which the use is located.

(e) *Dust and air pollution.*

Dust and other types of air pollution, borne by the wind from sources such as storage areas, yards, roads, conveying equipment, and the like on the lot, must be kept to a minimum by appropriate landscaping, screening, sheltering, paving, fencing, wetting, collecting, or other acceptable means.

(f) *Discharge and disposal of radioactive and hazardous waste.*

The discharge or disposal of radioactive or hazardous waste materials must comply with all applicable federal, state, and local laws, rules, and regulations that govern those materials or waste, generally. Radioactive and hazardous waste materials must be transported, stored, and used in conformance with all applicable federal, state, and local laws, rules, and regulations.

(g) *Odors.*

Any condition or operation that results in the creation of odors of an intensity and character as to be detrimental to the health and welfare of the public or that interferes unreasonably with the comfort of the public, must be removed, stopped, or modified so as to remove the odor.

(h) *Toxic substances.*

The storage, handling, or transport of toxic substances must comply with federal, state, and local laws, rules, and regulations.

(i) *Fire and explosion hazards.*

Materials that present potential fire or explosion hazards must be transported, stored, and used only in conformance with all applicable federal, state, and local regulations.

TITLE 16
OFF-STREET PARKING AND LOADING

SUBTITLE 1
PURPOSE OF TITLE

§ 16-101. Purpose

The off-street parking and loading regulations of this title are intended to:

- (1) provide accessible, attractive, secure, and well-maintained off-street parking and loading areas with the appropriate number of spaces in proportion to the needs of the proposed use;
- (2) increase public safety by reducing congestion of public streets;
- (3) encourage the use of alternative modes of transportation where appropriate; and
- (4) ensure that parking requirements are tailored to maintain pedestrian environments and sensitive to the urban fabric of the City.

(Ord. 16-581.)

SUBTITLE 2
GENERAL APPLICABILITY

§ 16-201. Existing off-street parking facilities.

(a) *No reduction below requirements.*

The number of existing off-street parking and loading spaces may not be reduced below the requirements of this title. If the number of those existing spaces is already less than the requirements of this title, it may not be further reduced.

(b) *Transition rules.*

If a building permit was lawfully issued before June 5, 2017, and if construction began within 180 days of the permit's issuance, off-street parking and loading spaces must be provided in the amount required for the issuance of that building permit, regardless of the requirements of this title.

(Ord. 16-581; Ord. 17-015.)

§ 16-202. Damage or destruction.

If a structure is reconstructed or repaired after being damaged or destroyed, off-street parking and loading facilities may be restored or maintained in an amount equivalent to that at the time of the damage or destruction. However, it is not necessary to restore or maintain parking and loading facilities in excess of the applicable requirements of this title.

(Ord. 16-581.)

§ 16-203. Additions or expansions to existing structures.

(a) *Parking spaces req'd for increased intensity.*

If a structure is increased through the addition of a dwelling unit, floor area, seating capacity, or other unit of measurement, off-street parking spaces must be provided for that increased intensity, as required by this title.

(b) *Limited exception for preexisting non-residential uses.*

However, a non-residential use that was lawfully established before the June 5, 2017, does not need to provide additional off-street parking for that increase until the aggregate increase in units of measurement equals 10% or more of the units of measurement existing on June 5, 2017. Once that level of increase has been reached, however, off-street parking facilities must be provided, as required by this title, for the total increase.

(Ord. 16-581; Ord. 17-015.)

§ 16-204. Change in use.

If a structure or land changes to a new use, the new use must provide the amount of parking and loading spaces required by this title.

(Ord. 16-581.)

§ 16-205. Provision of additional spaces and parking maximums.

Nothing in this title prevents the voluntary establishment of additional off-street parking or loading facilities. However, in no case may off-street parking be provided in excess of double the requirements of this Code, except for detached and semi-detached dwellings, to which no maximum applies. All regulations governing the location, design, and control of these facilities must be in accordance with this title.

(Ord. 16-581.)

§ 16-206. Prohibited uses of off-street parking and loading spaces.

(a) *Other than for motor vehicles, bicycles.*

All off-street parking spaces required by this title may only be used for the parking of motor vehicles and bicycles.

(b) *Storing vehicles for sales or hire.*

In no event may required parking spaces be used for the temporary or permanent storage of vehicles for sale or hire.

(c) *Vehicle repair or service.*

No motor vehicle repair work or service of any kind, except emergency repair service, is permitted in any off-street parking space.

(d) *Using space allocated to loading space to meet req't for parking space or vice-versa.*

No space allocated to an off-street loading space may be used to satisfy the requirement for an off-street parking space or access aisle, or portion of either. Conversely, the area allocated to an off-street parking space may not be used to satisfy the requirement for an off-street loading space or portion of a space.

(Ord. 16-581.)

§ 16-207. Computation of off-street parking requirements.

(a) *In general.*

The total number of required parking, loading, and bicycle spaces is based on the requirements for the use of the lot. However, if a lot contains more than 1 use, the number of required spaces is the sum of the separate requirements for each use. All off-street parking facilities must be completed before occupancy of the structure.

(b) *Computation standards.*

(1) In computing the number of off-street parking, loading, or bicycle spaces required by this title, the following standards of computation apply.

(2) A fraction of less than one-half may be disregarded, and a fraction of one-half or more is counted as 1 parking or loading space.

(3) In places of assembly in which patrons or spectators occupy benches, pews or similar seating facilities, each 24 inches of the seating facility is counted as 1 seat for the purpose of determining the requirement for off-street parking facilities. Floor area of a prayer hall is counted as one 1 seat per marked prayer mat space or, if prayer mat spaces are not marked, 1 seat for every 5 square feet in the prayer hall.

(4) Except as otherwise specified, parking or loading spaces required on an employee basis is based on the maximum number of employees normally present on the premises at any one time. If the determination of the number of parking spaces is based on the number of employees, the owner and the manager are counted as employee.

(Ord. 16-581.)

§ 16-208. Accessible parking requirements.

With the exception of single-family, detached and semi-detached, dwellings and rowhouse dwellings, in all off-street parking facilities where parking is provided for employees, visitors, or both, accessible parking spaces must be provided. The number of accessible parking spaces must be included in the total number of required parking spaces and must be in accordance with the applicable requirements of the Maryland Accessibility Code, and all other governing codes and applicable laws. These spaces must comply with the design standards in the Maryland Accessibility Code. These spaces must be identified by a sign and pavement markings indicating parking for the disabled only.

(Ord. 16-581.)

SUBTITLE 3
CONSTRUCTION OF FACILITIES

§ 16-301. Site plan review requirements.

(a) *In general.*

Site plan review is required before any construction or alteration of or addition to any off-street parking facility of 5 or more parking spaces or the construction of a new loading berth.

(b) *“Construction, alteration, or addition” described.*

(1) *Inclusions.*

For purposes of this section, construction, alteration, or addition includes all paving of previously unpaved surfaces, replacement of pavement with new binder and surface courses, construction of curbing, installation of new parking lot landscaping, and similar activities.

(2) *Exclusions.*

Construction, alteration, or addition does not include maintenance activities such as replacement of existing landscaping, repair of existing curbing, repairs, sealing, re-striping, or placement of surface course pavement over previously paved areas.

(Ord. 16-581.)

§ 16-302. Time of completion.

Off-street parking and loading facilities required by this title must be completed before issuance of a use permit for the use these facilities serve.

(Ord. 16-581.)

SUBTITLE 4
DESIGN OF OFF-STREET PARKING FACILITIES

§ 16-401. Location of off-street parking.

(a) *On-site of use or structure served.*

Unless otherwise permitted by this title, all off-street parking facilities must be located on the same lot as the use or structure served.

(b) *Front yard prohibited in certain commercial districts.*

In the C-1, C-1-E, C-1-VC, and C-2 Districts, off-street parking is prohibited in front of the front building line.

(c) *Off-site facilities*

(1) Off-street parking facilities may be located off-site if:

- (i) the parking facilities are located in a zoning district where this parking is permitted or allowed as a conditional use;
- (ii) the land on which the off-site parking facilities are located is within 600 feet of the lot line of the use or structure served; and
- (iii) the off-site parking facilities are on a lot possessed by the record titleholder of the lot occupied by the structure or use to be served by the parking facilities.

(2) For the purposes of this subsection, possession of the facilities may be by either:

- (i) deed; or
- (ii) 20-year or longer recorded deed restriction.

(3) The location of the off-site parking facilities and the term and contents of the deed or deed restriction permitting the owner of the use or structure served to use the off-site facilities are subject to the approval of the Zoning Administrator. The deed or deed restriction must be recorded in the Land Records of Baltimore City, binding the owner of that lot and the owner's heirs and assigns to maintain the required number of parking spaces for the duration of the use served or the term of the deed or deed restriction, whichever first terminates.

(d) *Valet service.*

Notwithstanding the restrictions of subsections (a), (b), and (c) of this section, a use may utilize a valet service in accordance with City Code Article 31, Subtitle 14 {"Valet Parking"}. However, the off-site parking facility must provide the required number of spaces. The use must certify that valet service will be used and that the required number of spaces has been provided.

(e) *PC Subdistricts.*

In a PC Subdistrict, off-street parking may be located off-site as long as the required parking facilities are located in that or any other PC Subdistrict.

(Ord. 16-581; Ord. 17-015.)

§ 16-402. Minimum dimensions of off-street parking spaces.

Off-street parking spaces must be designed in accordance with *Table 16-402: Off-Street Parking Dimensions.*

(Ord. 16-581; Ord. 17-015; Ord. 18-171.)

§ 16-403. Access.

(a) *In general.*

(1) *Parking space connection to aisle or driveway.*

Each off-street space must open directly onto an aisle or driveway wide enough to provide adequate means of vehicular access to the parking space.

(2) *Least interference with other vehicles.*

All off-street parking facilities must provide appropriate means of vehicular access in a manner that least interferes with traffic movement and in a way that permits vehicles to enter or leave the parking spaces without having to move any other vehicle.

(b) *Access to be from street, alley, driveway, or easement.*

All required off-street parking facilities must have vehicular access from a street, an alley at least 10 feet wide, a driveway, or cross-access easement connection.

(c) *When access from alley required.*

In the residential and commercial districts, if off-street parking areas can be accessed from an alley at least 15 feet wide, access from the alley is required and new curb cuts along the public right-of-way are prohibited.

(d) *One-way traffic aisles as in Table.*

Within off-street parking facilities, one-way traffic aisles must be designed in accordance with *Table 16-402.*

(Ord. 16-581.)

§ 16-404. Driveways.*(a) Conformance with DoT Book of Standards.*

The design of every driveway with access onto a City-owned roadway must conform to the City Department of Transportation's Book of Standards.

(b) Distance from side lot line.

(1) Driveways must be located at least 1 foot from the side lot line.

(2) However, a residential driveway may be located on the lot line if it physically abuts a driveway on the adjoining lot. This location will only be allowed if agreed to by the owners of each lot and that agreement is recorded as a shared driveway easement on each survey plat.

(c) Parking spaces.

(1) Single-family detached and semi-detached dwellings and rowhouse dwellings are allowed a paved parking space. This parking space may not be located in the required front or corner-side yard. In addition, no parking space may be located forward of the front building line.

(2) On lots that comprise less than 1,000 sq. ft., required parking spaces are excluded from the calculation of the impervious surface for the rear yard.

(Ord. 16-581; Ord. 17-015; Ord. 18-171.)

§ 16-405. Curb cuts.*(a) Permit required.*

(1) Curb cuts for driveways require a curb-cut permit from the Department of Transportation, subject to review by the Department of Planning.

(2) No person may construct, widen, remove, or alter any driveway or curb cut without a permit issued by the Department of Transportation.

(b) Considerations.

(1) For residential-, commercial-, and industrial-zoned properties, curb cuts will be considered for the following situations:

(i) for access to parking garages (principal use);

(ii) for access to parking lots with more than 5 parking spaces;

(iii) for dwelling units without rear or side access, where no on-street parking is allowed along the front lot line;

(iv) for dwelling units that are capable of securing side street access to a garage or parking space; and

(v) in cases where the proposed private parking will provide a net gain over the displaced amount of on-street parking.

(2) Existing curb cuts or abandoned curb cuts do not guarantee approval for reuse unless there is an existing permit. In addition, existing curb cuts lawfully established in the immediate vicinity do not guarantee approval of any given request.

(3) The City reserves the right to deny a curb cut request regardless of the availability or unavailability of side and rear access.

(Ord. 16-581; Ord. 17-015.)

§ 16-406. Drive-through facility stacking spaces.

(a) *Number required.*

Every drive-through facility must provide at least 4 stacking spaces per bay or lane, unless otherwise required by *Table 16-406: Required Off-Street Parking* or otherwise by this Code.

(b) *Standards.*

Stacking spaces provided for drive-through uses must:

(1) be at least 9 feet wide, as measured from the outermost point of any service window to the edge of the drive aisle, and at least 18 feet long;

(2) be placed in a single line behind the drive-through facility;

(3) be located so that, when in use, they do not obstruct ingress or egress to the site and do not obstruct access to required parking or loading spaces;

(4) begin behind the vehicle parked at a last point of service, such as a window or car wash bay; and

(5) comply with any additional standards in § 14-311 {“Drive-through facilities”}.

(Ord. 16-581.)

§ 16-407. Surfacing.

(a) *In general.*

Unless otherwise permitted by this title or in subsections (b) or (c) of this section, parking spaces must be surfaced and maintained with a dustless all-weather material in accordance with the Baltimore City Building Code.

(b) *Parallel paved wheel strips.*

For single-family detached and semi-detached dwellings, a parking space may consist of 2 parallel paved parking strips, each of which is at least 18 inches wide and at least 18 feet long.

(c) *Semi-pervious materials.*

For single-family detached, semi-detached, and rowhouse dwellings, driveways may be constructed of semi-pervious materials, such as grass-crete, pervious pavers, and gravel.
(Ord. 16-581; Ord. 18-171.)

§ 16-408. Pavement markings.

(a) *Multi-space area.*

Off-street parking areas of 5 or more spaces must delineate the parking spaces with paint or other permanent materials, which must be maintained in clearly visible condition.

(b) *Accessible parking spaces.*

Accessible parking spaces must be identified with the appropriate sign and must be visible at all times of the year.
(Ord. 16-581.)

§ 16-409. Curbing and wheel stops.

Wheel stops or curbing must be provided to prevent vehicles from damaging or encroaching on an adjacent parking or loading space, sidewalk, landscaped area, or parking lot island, fence, wall, or building. Curbing must be at least 6 inches in height, in accordance with Building Code § 3116.5 {"Curbs or bumpers"}.
(Ord. 16-581; Ord. 20-361.)

§ 16-410. Lighting.

Parking lot lighting must comply with § 15-505 {"Exterior lighting"} of this Code. Illumination of an off-street parking area must be arranged so as to deflect light away from adjacent properties and streets.
(Ord. 16-581.)

SUBTITLE 5
PERMITTED PARKING ALTERNATIVES

§ 16-501. Collective and alternating shared parking.

(a) *Collective parking.*

- (1) Off-street parking spaces for separate uses may be provided collectively if the aggregate number of spaces provided is not less than the sum of the spaces required in *Table 16-501: Collective Parking Calculation*. *Table 16-501* is applied as provided in this subsection.
- (2) The required number of spaces for each use is calculated according to *Table 16-406: Required Off-Street Parking*.
- (3) The required number of spaces for each use is then applied to the percentages shown in *Table 16-501* for each applicable time frame and the appropriate land use category, to determine the number of required spaces.
- (4) The number of spaces are added for all land uses within each time frame, and the highest sum total in a time frame is the required number of spaces.

(b) *Alternately shared parking arrangements.*

- (1) An off-street parking facility may be alternately shared between 2 or more uses, as long as the use of that facility by each user does not occur at the same time. Alternately shared parking arrangements must meet the conditions set forth in this subsection.
- (2) The Zoning Administrator must confirm that the use of the facility by each user does not take place at the same hours during the same days of the week.
- (3) The users of the alternating shared parking arrangement must record an agreement to share the parking facilities, subject to approval by the Zoning Administrator. A copy of the recorded agreement must be submitted to the Zoning Administrator.
- (4) The off-site parking facilities must be located within 600 feet of the lot line of the use or structure served.
- (5) Any subsequent change in ownership or use must require proof that the minimum parking requirements, per this title, have been met for each use. The owner of an existing building or use has 180 days within which to accommodate required off-street parking or to apply for a variance. If the owner is unable to accommodate the parking or apply for a variance, then the use permit is revoked with respect to the use for which the separate parking was required. The use permit will be reinstated when all applicable provisions of this title are complied with. As an alternative to a variance, a new shared parking agreement may be arranged in accordance with this subsection.

(Ord. 16-581.)

§ 16-502. Land-banked future parking.*(a) In general.*

Land banking allows for designating a portion of land on a site that would be required for parking to be held and preserved as open space, rather than constructed as parking. The Department of Planning may permit land banking of up to 25% of the required parking spaces through the site plan review process, subject to the requirements of this section.

*(b) Prerequisites.**(1) Reduced current parking needs.*

The applicant must provide sufficient evidence that supports the reduced parking needs.

(2) Area suitable for future parking.

The area proposed for land banking of parking spaces must be an area suitable for parking at a future time.

(c) Exclusive use for land-banking.

The land-banked area may not be used for any other use and must be part of the same lot and all under the same ownership.

(d) Designation on site plan

As part of the site plan review process, the applicant must show the area to be banked on the site plan and marked as “Land-Banked Future Parking”.

(e) Conversion to parking spaces.

The Zoning Administrator, on the basis of increased parking demand for the use, may require the conversion of all or part of the land-banked area to off-street parking spaces.

(Ord. 16-581.)

§§ 16-503 and 16-504. {Reserved}**§ 16-505. Cross-access easements.***(a) Circulation between sites encouraged.*

Adjacent commercial uses that possess dedicated parking areas are encouraged to provide a cross-access drive to allow circulation between sites. For new commercial and office uses, a system of joint-use driveways and cross-access easements is encouraged where feasible. Commercial property owners are encouraged to pursue cross-access with neighboring property owners when site plan review is requested. If cross-access will be provided, the Zoning Administrator may require that the property owner provide proof that adjacent property owners have been contacted in writing regarding the provision of cross-access.

(b) *Design requirements.*

Joint-use driveways and cross-access easements must incorporate the following:

- (1) a minimum width of 24 feet to ensure 2-way travel aisles to accommodate automobiles, service vehicles and loading vehicles;
- (2) bump-outs and other design features to make it visually obvious that the abutting properties are tied together; and
- (3) a unified access and circulation plan for coordinated or shared-parking areas.

(c) *Easement requirements.*

Property owners who establish cross-access easements under this section must:

- (1) record an easement that allows cross-access to and from properties served by the joint-use driveways and cross-access easement;
- (2) record an easement to the effect that remaining access rights along the roadway will be dedicated to the City, and that any pre-existing driveways will be closed and eliminated after construction of the joint-use driveway; and
- (3) record a joint maintenance agreement that defines the maintenance responsibilities of each property owner.

(Ord. 16-581.)

SUBTITLE 6
REQUIRED OFF-STREET PARKING

§ 16-601. Exemptions from requirements.

(a) *In general.*

The following districts and uses are allowed the following exemptions from the off-street parking requirements of *Table 16-406: Required Off-Street Parking*. These do not include exemptions from required bicycle parking.

(b) *Exemptions within certain districts.*

(1) The C-1, C-1-E, C-1-VC, and C-5 Districts and all non-residential uses in the R-MU and D-MU Overlay Districts are exempt from parking requirements.

(2) (i) In the PC Subdistricts, the following uses are exempt from the off-street parking requirements of *Table 16-406: Required Off-Street Parking*:

(A) open-space uses (except for recreational marinas); and

(B) commercial uses with a gross floor area of less than 25,000 square feet.

(ii) The commercial-use exemption applies to any commercial use with a gross floor area of less than 25,000 square feet, even if there are other commercial uses located on the same lot.

(c) *Square footage exemption for C-2.*

(1) The first 2,500 square feet of gross floor area for commercial uses in the C-2 District are exempt from the parking requirements of *Table 16-406*.

(2) Those commercial uses 2,500 square feet or less in gross floor area located within a multi-tenant configuration (e.g., a shopping center) are not eligible for this exemption and must provide the required parking.

(d) *Rowhouse dwelling.*

For a rowhouse dwelling that is placed, constructed, or reconstructed in an existing row of attached or formerly attached rowhouse dwellings, no off-street parking spaces need be provided if any of the following circumstances are met:

(1) no off-street parking space existed for the previous dwelling;

(2) the lot adjoins a street that is at least 34 feet wide;

(3) the lot is less than 85 feet deep; or

- (4) regardless of the depth of the lot or the width of the street, the alley adjoining the dwelling is less than 10 feet wide.

(e) *Neighborhood commercial establishment.*

In a neighborhood commercial establishment allowed by this Code, no off-street parking is required for any use of less than 2,500 square feet in gross floor area.

(f) *Structures over 50 years old, etc.*

Structures over 50 years old or structures that have received an historic tax credit are exempt from the parking requirements, subject to review and approval by the Director of Planning, if they have not historically provided parking and they lack sufficient space on the lot to accommodate parking. However, any conversions of rowhouse dwellings (Title 9, Subtitle 7) existing as of June 5, 2017, must provide additional parking spaces for the additional dwelling units required by this Code.

(Ord. 16-581; Ord. 17-015; Ord. 18-171).)

§ 16-602. Required off-street parking.

(a) *In general.*

The minimum number of off-street parking spaces to be provided for the designated uses is as in *Table 16-406: Required Off-Street Parking*. *Table 16-406* lists parking requirements for the generic uses listed within the districts. In some cases, uses that are considered part of a generic use category are listed with specified parking requirements. These specific uses are listed only for the purposes of this title and do not indicate whether the uses are permitted or conditional uses within any district. Certain generic uses listed within the districts do not have parking requirements. These types of uses are not listed in *Table 16-406*.

(b) *Reductions – Affordable housing.*

No more than 1 parking space need be provided for every 2 dwelling units in dwellings that are erected or rehabilitated subject to a restriction that the units be leased to residents with incomes at or below 60% of the Area Median Income, with that restriction being for a term of not less than 15 years from the date of the issuance of a use permit and recorded in the Land Records of Baltimore City. The Housing Commissioner must verify, by letter to the Planning Director and the Zoning Administrator, the recordation, term, and tenor of the restriction.

(c) *Reductions – Small dwellings.*

No more than 0.5 parking spaces need be provided for every dwelling unit that is 500 square feet or smaller.

(d) *Reductions – Housing for elderly.*

For units designed for occupancy by the elderly in a government-assisted private or public housing dwelling:

- (1) in the R-5 and R-6 Districts, no more than 1 parking space need be provided for every 2 units; and
- (2) in the R-7, R-8, R-9, and R-10 Districts, no more than 1 parking space need be provided for every 4 units.

(e) *Compact spaces.*

Compact spaces may be substituted for required parking spaces subject to site plan review and approval. The use of compact spaces does not reduce or increase the amount of parking required by *Table 16-406* and this Code.

(*Ord. 16-581; Ord. 17-015.*)

SUBTITLE 7
REQUIRED BICYCLE PARKING

§ 16-701. Design standards for all bicycle parking.

(a) *Space size.*

Required bicycle spaces must be at least 2 feet wide by 6 feet long, with a minimum overhead vertical clearance of 7 feet 6 inches, except for approved bike lockers and other enclosures, which may be shorter in height.

(b) *Bicycles only.*

All bicycle parking spaces required by this title must be used solely for the parking of bicycles.

(c) *Required signage.*

(d) *Paving, draining, and lighting.*

Areas used for required bicycle parking must be paved and drained to be reasonably free of mud, dust, and standing water, and must be well-lighted.

Bicycle parking must be designed so that bicycles may be securely locked without undue inconvenience and will be reasonably safeguarded from intentional or accidental damage.

(f) *Parking at ground level or by accessible elevator.*

Bicycle parking must be provided at ground level unless an elevator is easily accessible to an approved bicycle storage area.

(g) *Minimal interference with pedestrians.*

Bicycle parking must be positioned so as to minimize interference with pedestrian movements.

(h) *Lockers.*

If required bicycle parking is provided in lockers, the lockers must be:

- (1) lockable;
- (2) capable of fully enclosing the bicycle;
- (3) securely anchored;

- (4) constructed from a strong, weather-resistant, and low- to no-maintenance material;
- (5) clearly labeled as bicycle parking;
- (6) constructed with doors that open at least 90 degrees to allow easy loading and unloading;
- (7) posted with information about how to use bicycle lockers (user-provided locks, leasing, sign-up system, smart cards, etc.) on or near the lockers; and
- (8) if the lockers are stacked on top of each other, equipped with a wheel guide tray or other mechanism to assist the user with lifting the bicycle.

(i) *Floor racks.*

SUBTITLE 5
AREAS OF SPECIAL SIGNAGE CONTROL

§ 17-501. Purpose.

The City recognizes that certain commercial areas present a unique character that could be enhanced with the application of sign standards that depart from the requirements of this title. In these circumstances, these standards would be considered supportive of the commercial area. Under this subtitle, the Planning Commission may recommend and the City Council may approve the designation of an area that meets certain criteria as an Area of Special Signage. The Planning Commission may then approve a specific Signage Plan for that Area of Special Signage Control.
(Ord.18-216.)

§ 17-502. Applicability.

Approval of an Application for an Area of Special Sign Control requires approval by ordinance, in accordance with the applicable procedures of Title 5, Subtitle 5 {“Legislative Authorizations”} of this Code, except that §§ 5-506(a)(2) and 5-508 do not apply.

(b) *Process.*

- (1) If an area is located in a zoning district listed in § 17-502(a)(1) of this subtitle and meets the requirements of this subtitle, a proposed Ordinance can be introduced to designate that area as an Area of Special Sign Control.

(2) Notice of the proposed Ordinance's introduction is as required in § 5-603 of this Code, except that instead of the contents of the notice as set forth in § 5-603(b) of this Code, the notice must instead include:

- (ii) date of hearing on the proposed Ordinance;
- (iii) the name and address of the applicant(s);

(1) The Planning Commission may recommend approval of the application so long as the Planning Commission makes findings of fact that the designation of the area as an Area of Special Signage Control:

- (i) would not increase the likelihood of traffic congestion or distraction;
- (ii) would not add to the visual clutter in the area; and
- (iii) would not be incongruous with the existing or contemplated design of the area.

(2) If 51% of property owners inside the proposed Area of Special Sign Control object to the designation of that area as an Area of Special Sign Control before the Planning Commission hearing on the proposed Ordinance, the Director of Planning:

- (i) may not recommend to the Planning Commission that the City Council approve the application; but
- (ii) must still address the findings required by paragraph (1) of this subsection.

(3) The City Council may approve the application even if the Planning Commission does not approve it, so long as the City Council makes findings of fact that the designation of the area as an Area of Special Signage Control:

- (i) would not increase the likelihood of traffic congestion or distraction;
- (ii) would not add to the visual clutter in the area; and
- (iii) would not be incongruous with the existing or contemplated design of the area.

(Ord.18-216.)

§ 17-504. Signage Plan.**(a) Required.**

Once an area is designated as an Area of Special Signage Control, a Signage Plan must be submitted to the Planning Commission.

(b) Contents.

The Signage Plan must include:

- (1) a list of what sign types are being sought in the Area of Special Sign Control;
- (2) the location and number of signs per lot or building;
- (3) the maximum dimensions per sign; and
- (4) the percentage deviation being sought in the area or height of the sign or in the maximum cumulative area of signs from what is allowed by right as provided in *Table 17-201: Sign Regulations* and *Table 17-306: Maximum Cumulative Area of Signs*.

(c) Content deviations and additions.

- (1) The Signage Plan may include deviations from location, height, quantity, and dimensional requirements of this title so long as the deviation is allowed by *Table 17-201: Sign Regulations* or *Table 17-306: Maximum Cumulative Area of Signs*.
- (2) The Signage Plan may include a type of sign that is not generally permissible in the underlying district if that additional sign type is listed in *Table 17-201: Sign Regulations* as one allowed in an Area of Special Sign Control for that district and is otherwise a sign type defined in this title.
- (3) The Board of Municipal and Zoning Appeals may not grant any variance for a sign that has been the subject of a deviation or addition under this section.

(d) Calculating percentage deviations.

When calculating the percentage deviation for a sign area or height, a fraction in the resultant allowable deviation that is $\frac{1}{2}$ or more of a whole number counts as 1 additional square foot for sign area or 1 additional foot for height.

(e) Prohibitions.

The Signage Plan may not alter or deviate from the standards required by § 17-402 {"Alcoholic beverage and cigarette advertising signs"} or § 17-411 {"Obscene signs"} of this title.
(Ord.18-216.)

§ 17-505. Signage Plan approval and amendment process.**(a) *In general.***

The Planning Commission must approve the Signage Plan before any signs may be erected in an Area of Special Signage Control.

(b) *Standards.*

(1) The Planning Commission must make findings of fact that the Signage Plan:

- (i) would not increase the likelihood of traffic congestion or distraction;
- (ii) would not add to the visual clutter in the area; and
- (iii) would not be incongruous with the existing or contemplated design of the area.

(2) The Planning Commission may only approve a Signage Plan that:

- (i) meets the requirements listed in *Table 17-201: Sign Regulations* and *Table 17-306: Maximum Cumulative Area of Signs*; and
- (ii) is otherwise allowed by this title.

(3) The Planning Commission may request review and evaluation of any aspect of a proposed signage plan from any City agency prior to approval of a signage plan at the Planning Commission.

(c) *Amendments.*

(1) Any amendments to the boundaries of an Area of Special Sign Control must be approved by Ordinance of the Mayor and City Council.

(2) Any amendments to the Signage Plan must be approved by the Planning Commission.

TITLE 18
NONCONFORMITIES

SUBTITLE 1
PURPOSE OF TITLE

§ 18-101. Purpose.

(a) *Background.*

This Code establishes separate districts, each of which is an appropriate area for the location of the uses and structures that are allowed in that district. Consistent with the establishment of those districts, all uses and structures incompatible with allowed uses and structures must be strictly regulated and properly controlled.

(b) *Regulation.*

This title provides for the regulation of nonconforming uses and structures existing in the various districts. Specifically, this title regulates the continuance of nonconforming uses, structures, lots, and signs.

(Ord. 16-581.)

SUBTITLE 2
DEFINITIONS; GENERAL PROVISIONS

§ 18-201. Definitions.

(a) *In general.*

In this title, the following terms have the meanings indicated.

(b) *Nonconforming lot.*

“Nonconforming lot” means a lawfully existing lot that, as of the effective date of this Code (June 5, 2017) or the effective date of an amendment to this Code, does not comply with the lot area or lot width regulations applicable to the district in which it is located.

(c) *Nonconforming structure.*

“Nonconforming structure” means a lawfully existing structure that, as of the effective date of this Code (June 5, 2017) or the effective date of an amendment to this Code, does not comply with the bulk, yard, or other regulations applicable to the district in which it is located.

(d) *Nonconforming use.*

“Nonconforming use” means a lawfully existing use of a structure or of land that, as of the effective date of this Code (June 5, 2017) or the effective date of an amendment to this Code, does not conform to the use regulations applicable to the district in which it is located.

(Ord. 16-581; Ord. 17-015.)

§ 18-202. Authority to continue.

(a) *Legal use, structure, or lot.*

Except as otherwise specified in this title, any use, structure, or lot that existed as a lawful nonconforming use, structure, or lot as of June 5, 2017, and any use, structure, or lot that has been made nonconforming because of the terms of this Code or any subsequent amendment to this Code, may continue subject to the provisions of this title so long as it remains otherwise lawful.

(b) *Unlawful use or structure.*

A use or structure that was unlawful as of June 5, 2017, remains unlawful to the extent that the use or structure conflicts with any of the requirements of this Code or of the Baltimore City Building, Fire, and Related Codes Article, including the requirements to obtain a use permit and an occupancy permit.

(Ord. 16-581; Ord. 17-015.)

§ 18-203. Safety regulations.

All police power laws and regulations enacted to promote the public health, safety, and welfare, including all building, fire, and health codes, apply to nonconforming structures.
(*Ord. 16-581.*)

§ 18-204. Nonconformity not established by casual, etc., uses.

A casual, temporary, or unlawful use of any land or structure does not establish any nonconforming use, nonconforming density, or other form of nonconformity.
(*Ord. 16-581.*)

§ 18-205. Nonconformity with off-street parking requirements.

No use may be construed as nonconforming solely by reason of nonconformance with the off-street parking requirements of this Code.
(*Ord. 16-581.*)

§ 18-206. Determination of nonconformity.

(a) *By BMZA.*

Whether a nonconforming use, nonconforming density, or other form of nonconformity exists is a question of fact that, except as specified in subsection (b) of this section, must be decided by the Board of Municipal and Zoning Appeals after public notice and hearing and in accordance with the rules of the Board.

(b) *By Administrator.*

The Zoning Administrator may issue a use permit, without referring the matter to the Board of Municipal and Zoning Appeals, if:

(1) permits, ordinances, the Police Survey of 1931, or other records on file with the Zoning Administrator:

(i) document the existence of a lawful nonconforming use, nonconforming density, or other nonconformance; and

(ii) clearly show its continued and uninterrupted use to the date of inquiry or application; and

(2) a field inspection of the construction, design, and arrangement of the structure or use in question confirms these records.

(*Ord. 16-581; Ord. 17-015.*)

SUBTITLE 3
NONCONFORMING USES

§ 18-301. Continuation.

Except as otherwise specified in this Code, nonconforming uses may be continued, subject to the regulations of this subtitle.
(*Ord. 16-581.*)

§ 18-302. Expansion of use or structure.

(a) *In general.*

A nonconforming use may not be expanded in any manner, nor may any structure be erected or expanded, unless the use of the land and the structure are made to conform to the regulations of the district in which they are located.

(b) *Exception.*

For a nonconforming use or structure in a Commercial, Industrial, or TOD District, the Zoning Board may authorize by variance an expansion of the gross floor area of the use or structure by up to 25% of that which lawfully existed as of June 5, 2017.
(*Ord. 16-581; Ord. 18-171.*)

§ 18-303. Repairs and alterations.

(a) *Maintenance and repairs.*

Normal maintenance and incidental repair may be performed on any structure that is devoted in whole or in part to a nonconforming use, as long as the maintenance or repair will not, in any way, create any new nonconformity, increase the degree of any nonconformity, or increase the bulk of the structure.

(b) *Structural alterations.*

No structural alteration may be performed on any structure devoted to a nonconforming use, unless:

- (1) the alteration is required by law;
- (2) the alteration is necessary to restore the structure to a safe condition on order of any official charged with protecting the public safety;
- (3) the alteration is for the purpose of bringing about a conforming use; or
- (4) the alteration will not, in any way, create any new nonconformity, increase the degree of any nonconformity, or increase the bulk of the structure.

(*Ord. 16-581.*)

§ 18-304. Restoration of damaged structures.*(a) In general.*

If a structure containing a nonconforming use is damaged or destroyed or if a nonconforming sign is damaged or destroyed, the structure or sign may be repaired or reconstructed and the nonconforming use or sign re-established as long as no new nonconformities are created and the existing degree of any nonconformity is not increased.

(b) Timely restoration required.

(1) A building permit must be obtained for the repair or reconstruction within 1 year of the date of the damage or destruction.

(2) The Board of Municipal and Zoning Appeals may grant an extension of this period.

(c) Effect of failure to act timely.

If a building permit is not obtained within the time required by this section or the repairs not completed within 1 year of the issuance of the building permit, then the use may not be reestablished unless the structure and the use conform to all regulations of the district in which they are located.

(Ord. 16-581; Ord. 18-216; Ord. 20-350.)

§ 18-305. Relocation.*(a) On same lot.*

(1) A nonconforming structure or use may not be relocated, in whole or in part, to any other location on the same lot.

(2) A nonconforming freestanding pole sign that is 300 square feet or larger that is either damaged or destroyed pursuant to § 18-304(a) may be relocated by no more than 15 feet in any direction from its original location.

(b) To another lot.

A nonconforming use may be relocated to another lot only if the use conforms to all regulations of the zoning district in which the new lot is located, including all use regulations.

(Ord. 16-581; Ord. 18-216.)

§ 18-306. Change of use.*(a) Change described.*

A change of use occurs when an existing nonconforming use has been terminated and another use has commenced.

(b) *When change allowed.*

A nonconforming use may not be changed to any other use except one that is allowed within the zoning district in which it is located.

(c) *Reversion prohibited.*

When a nonconforming use has been changed, in whole or in part, to an allowed use, the whole or part that has been made to conform may not later be changed back to a nonconforming use.

(d) *Violation constitutes abandonment.*

Any change in use that violates this Code constitutes an abandonment of the previously existing nonconforming use.

(Ord. 16-581.)

§ 18-307. Discontinuance or abandonment.

(a) *Discontinuance of use.*

Whenever the active and continuous operation of any nonconforming use, or any part of that use, has been discontinued for 12 consecutive months:

- (1) the discontinuance constitutes an abandonment of the discontinued nonconforming use, or discontinued part of that use, regardless of any reservation of an intent to resume active operations or otherwise not abandon the use; and
- (2) the discontinued nonconforming use, or discontinued part of that use:
 - (i) may not be reestablished; and
 - (ii) any subsequent use of any part of the land or structure previously used for the discontinued use, or discontinued part of that use, must conform to the regulations of the district in which the land or structure is located.

(b) *Abandonment of use.*

If, at any time, actual abandonment in fact is evidenced by removal of structures, machinery, or equipment, or by alterations that indicate a change in the use of any part of the land or structure:

- (1) that action constitutes an abandonment of the nonconforming use, or affected part of that use; and
- (2) all rights to continue or reestablish the nonconforming use, or part of that use, immediately terminate.

(Ord. 16-581.)

§§ 18-308 to 18-309. {Reserved}**§ 18-310. Junk or scrap storage and yards; Vehicle dismantling facilities; Landfills.****(a) Status.**

(b) Modifications – Junk ... yards; Vehicle dismantling.

For a lawful nonconforming junk or scrap storage and yard or a lawful nonconforming vehicle dismantling facility:

- (1) structural alterations are permitted; and
- (2) an expansion of no more than 25% in land area is allowed if, in addition to any conditions and restrictions previously imposed:
 - (i) the expansion is onto a property that is no more than 750 feet from the property line of the junk or scrap storage and yard or the vehicle dismantling facility; and
 - (ii) the expansion is onto the portion of that property that is closest to the existing use.

(c) Modifications – Landfills.

For a lawful nonconforming landfill:

- (1) structural alterations are permitted; and
- (2) an expansion of no more than 35% in land area is allowed if, in addition to any conditions and restrictions previously imposed:

 - (ii) the expansion is onto the portion of that property that is closest to the existing use.

(d) Lot subdivision or consolidation.

The area to be used for the expansion must be subdivided into a separate lot or, if possible, consolidated as part of the existing junk or scrap storage and yard, vehicle dismantling facility, or landfill to avoid having a use allowed on a portion of a lot but not on the whole lot.

(Ord. 16-581.)

§ 18-404. Repairs and alterations.

(a) *Maintenance and repairs.*

§§ 18-407 to 18-410. {Reserved}

(a) *In general.*

A minor expansion of a nonconforming structure may be made with the administrative approval of the Zoning Administrator, as provided in this section.

(b) *Application; Certifications.*

- (1) An application under this section must be filed by the property owner or with the written consent of the property owner.
- (2) The application must be filed with the Zoning Administrator, in the form and with the information and accompanying plans that the Zoning Administrator requires.

(Ord. 16-581.)

§ 18-502. Alterations, replacements, relocations, etc.

- (1) an increase in the area or any dimension of the sign;
- (2) an increase in the degree of illumination of the sign;
- (3) the addition of:
 - (i) any moving, rotating or otherwise animated part; or
 - (ii) any flashing, blinking, fluctuating, or otherwise animated light; or

(Ord. 16-581.)

§ 18-503. Restoration of damaged signs.

If a nonconforming sign is damaged or destroyed to the extent of more than 50% of the sign's fair market value immediately preceding the damage, the sign may not be repaired or reconstructed unless it will then conform to all applicable regulations for the district.

(Ord. 16-581.)

§ 18-504. Continuance of certain nonconforming billboards.

Any legal nonconforming billboard, as of June 5, 2017, may continue to follow the rule in § 11-207(c)(9) and (10) of the Zoning Code of Baltimore City that was in effect on June 4, 2017.

This section does not apply in an Industrial District.

(b) *When allowed.*

Except as provided in subsection (b) of this section, retail goods establishments with alcoholic beverage sales in a residential district must be terminated as follows:

- (1) for an establishment with alcoholic beverage sales that existed as a lawful nonconforming use before June 5, 2017, no later than June 4, 2019, notwithstanding the issuance of any prior use permit as a nonconforming package goods liquor store; and
- (2) for an establishment that becomes nonconforming on or after June 5, 2017, whether by the enactment of this Code, by the enactment of an amendment to this Code, or by the reclassification of the property, no later than 3 years after the date on which the use became nonconforming.

(b) Waiver for hardship.

(1) Board Authority.

The Board of Municipal and Zoning Appeals may extend by an additional 2 years the time by which a retail goods establishment with alcoholic beverage sales must terminate the nonconforming use.

 - (B) investment in capital improvements to the property in excess of \$100,000 after June 30, 2007, and before April 1, 2012; or
 - (C) a lease that was entered into before April 1, 2012, has a term remaining in excess of 10 years, and is not terminable by the lessee because of zoning changes prohibiting the use.

(ii) For all other uses that become nonconforming, whether by enactment of this Code, by the enactment of an amendment to this Code, or by reclassification of the property, the property owner or lessee seeking an extension must establish the existence of one of the following factors that would render termination within the time required by subsection (a) of this section a hardship:

- (A) purchase of the property within the 5 years immediately preceding the enactment of this Code, the enactment of the amendment to this Code, or the enactment of the property reclassification, as the case may be;
- (B) investment in capital improvements to the property in excess of \$100,000 after June 30, 2007, and before April 1, 2012; or
- (C) a lease that was entered into before April 1, 2012, has a term remaining in excess of 10 years, and is not terminable by the lessee because of zoning changes prohibiting the use.

- (2) be terminated.

(b) *Waiver for hardship.*

A waiver extending the time for compliance based on hardship may be applied for in accordance with § 18-701(b) {"Retail good establishments...: Waiver for hardship"} of this subtitle.

(Ord. 16-581; Ord. 17-015.)

§ 19-212. Remedies not exclusive.

In pursuing a violation, the Zoning Administrator may use any one or more available remedies or enforcement actions. The initiation of any one remedy or enforcement action does not preclude pursuing any other remedy or enforcement action authorized by law.

(Ord. 16-581; Ord. 17-015.)

§ 19-213. Civil court proceedings.

(a) *In general.*

The Zoning Administrator, on behalf of the Mayor and City Council, may file a petition in District Court to compel compliance with or obtain other relief under this Code.

(b) *Judicial relief.*

In an action brought under this section, the court may compel compliance with this Code by:

(1) issuing an order to cease and desist from a violation; and

(2) granting other injunctive relief, as appropriate to:

(i) prevent unlawful construction;

(ii) restrain, correct, or abate a violation;

- (iii) prevent illegal occupancy of a structure or premises; or

(Ord. 16-581; Ord. 17-015.)

SUBTITLE 3. ADMINISTRATIVE AND JUDICIAL REVIEW**§ 19-301. Administrative appeals.****(a) *Who may appeal.***

A decision of the Zoning Administrator, including the issuance of a violation notice under Subtitle 2 {“Enforcement”} of this title, may be appealed to the Board of Municipal and Zoning Appeals by:

- (1) any person aggrieved by the decision; or
- (2) any officer or department, board, bureau, or other unit of the City affected by the decision.

(b) *When and how taken.*

(1) The notice of appeal must be filed as follows:

- (i) in the case of a violation notice, within 10 days of the date the notice was served; and
- (ii) in the case of any other decision, within 10 days of the date on which notice of the decision was given.

(2) The notice of appeal must:

- (i) be filed with the Zoning Administrator, in the form that the rules of the Board of Municipal and Zoning Appeals require; and
- (ii) specify the grounds for the appeal.

(3) Once the Zoning Administrator determines the notice of appeal is timely and complete, the Zoning Administrator must transmit the notice to the Board of Municipal and Zoning Appeals, together with all information that constitutes the record of the action appealed from.

(c) *Stay of proceedings.*

- (1) If the appeal is timely filed and pursued, an appeal to the Board of Municipal and Zoning Appeals stays all proceedings in furtherance of the action appealed from, except as provided in paragraph (2) of this subsection.
- (2) If the Zoning Administrator certifies to the Board of Municipal and Zoning Appeals that, by reason of facts stated in the certification, a stay would, in his or her opinion, cause imminent peril to life or property or is not justified by any material fact, the proceedings are not stayed, unless otherwise ordered by the Board of Municipal and Zoning Appeals or, on application to a court of competent jurisdiction, with notice to the Zoning Administrator, by the court on good cause shown.

(d) *Decision of Board.*

(1) Within 30 days of the public hearing, the Board of Municipal and Zoning Appeals must render its decision in writing, setting forth its findings of fact and conclusions of law. If, however, the Board of Municipal and Zoning Appeals determines that additional time is needed to render a decision, the Board may, on written notice to the parties, extend the time for an additional 30 days.

(2) In exercising its powers of review, the Board of Municipal and Zoning Appeals may:

(i) reverse or affirm, wholly or in part, or modify the decision appealed from; and

(ii) make any order, requirement, decision, or determination as ought to be made in accordance with this Code.

(3) For these purposes, the Board of Municipal and Zoning Appeals has all the powers conferred by this Code on the Zoning Administrator.

(Ord. 16-581; Ord. 17-015; Ord. 18-136.)

§ 19-302. Judicial review.

(a) *Final administrative decision.*

All decisions and findings of the Board of Municipal and Zoning Appeals that are made on appeals, on application for conditional uses or variances, and in all other matters on which the Board of Municipal and Zoning Appeals is required to act after public notice and hearing, are final administrative decisions, subject to judicial review.

(b) *Who may seek.*

Judicial review of a final administrative decision of the Board of Municipal and Zoning Appeals may be sought by:

(1) any person aggrieved by the decision; or

(2) any officer or department, board, bureau, or other unit of the City aggrieved by the decision.

(c) *How and when taken.*

(1) This review must be sought within the time and in the manner required by law and the Maryland Rules of Procedure.

(2) Before the petition for judicial review is filed with the court, the petitioner must file a copy with the Board of Municipal and Zoning Appeals and the Zoning Administrator.

(3) The Board of Municipal and Zoning Appeals must promptly notify the City Solicitor of the filing of every petition for judicial review.

(d) *Stay of proceedings.*

(1) The filing of a petition for judicial review does not stay the proceedings for which the review is sought.

(2) On motion and hearing, the court may grant a stay on good cause shown, subject to the conditions of bond or otherwise that the court considers proper.

(Ord. 16-581; Ord. 17-015.)

§ 19-303. Appellate review.

Any party to the judicial review may appeal the court's final judgment to the Court of Special Appeals in accordance with the Maryland Rules of Procedure.
